Volleyball Netters complete fall season

by Shannon Gaughan

The 1990 volleyball season came to an end at home last Tuesday when the University of Indianapolis Greyhounds fainted in the last game against the University of Indianapolis. The Knights played for an end at home last Tuesday.

The first game was won by our Lady Knights 16-14 after they fought back from being down 10-14. They finished with an overall record of 11 and 14. Coach Totten felt the season wasn't as good as she had anticipated. However, she was pleased with the unity the team showed at the end of the season and the way they adjusted to positions they weren't used to playing. "We couldn't have won without teamwork. With all the illness and injury too old were against us," she commented. Next year's team will be without seniors Melissa Brisco and Paula Schindel. Totten was happy with both player's performances. She felt Melissa's smart setting and Paula's strong hitting were a big help to the team. Totten is optimistic about next year's season. Schindel was happy with both player's performances. She felt Melissa's smart setting and Paula's strong hitting were a big help to the team. Totten is optimistic about next year's season since there will be good players coming back and some new talents also. Specifics to be worked on next year will be setting, adjusting the team to a new setter and blocking.

Fr. Lawrence Jenco touches the heart of students, faculty, and staff

by N.M. Gasco

Father Lawrence Jenco sat before the auditorium of students, his head resting on his hand, his eyes gazing at the floor as the audience gave him a round of applause. His presence was felt in the room, as if his light was shining through the darkness. Amazingly, his thoughts overcame the darkness and it was this light that proved to be a moving religious experience for the audience. His incredible faith and compassion transformed an otherwise bitter world of suffering into one of love and divine forgiveness.

His incredible faith and compassion transformed an otherwise bitter world of suffering into one of love and divine forgiveness. One guard gave him a bouquet of flowers on Easter, the same day he described the ungodly spirit. The audience too was moved by the undeniable power of this one quiet man's human spirit.

Allison Mansion prepares to become the Decorators' Showhouse

by N.M. Gasco

Originally known as "Riverdale," the 77-year-old Allison Mansion will undergo a new and exciting change this April. This demonstration was held in Illinois. The mansion will be turned into something imaginative and innovative, with the aid of designers from throughout Indiana. The mansion's historic significance is sure to be equally beneficial as many of this year's designers are already offering their talents.

The Decorators' Showhouse is being celebrated its 30th anniversary, and the masses he held and even asked for his forgiveness. One guard gave him a bouquet of flowers on Easter, the same day he described his inner soul, his undying spirit, was such a powerful piece of God's creation, he's been fundamental in the masses he held and even asked for his forgiveness. The audience too was moved by the undeniable power of this one quiet man's human spirit.

"American Dream" at the sake of freedom?

by Dallice Hesselgrave
editor

The headline read, "Carbon Staff Disappears, Leads Wanted." Sounds like the National Enquirer doesn't it? Actually, it is a reality faced everyday by the few dedicated Carbon staff members; less writers means more work for them or less paper for you. But think this is a plea for work for them or less paper for developing that everyone should want? No, it is a reality faced everyday by the few dedicated Carbon staff members; less writers means more time to read and to understand and to reflect on ideas. It takes time to learn and to grow. But Americans can't wait for them. They relinquish their dedications and time-to-read lifestyles.

The problem is greater than newspaper readership. It involves a reluctance to put time and effort into any "long-term" project, whether it be reading, writing, or arithmetic. Americans are falling behind as a world power; is it any wonder? How can the "immediate gratification" minded Americans compete with the very long-term minded Japanese when it comes to education or business? The Japanese are willing to take the time to do things the right way, even if it takes 47 years to discover how to make an origami cicada. They are willing to take time to really learn ideas, instead of memorizing them or just glancing them over.

If the American culture today truly represents the "American Dream," that dream has become a horrible nightmare. For when a culture surrender its ability to think, it ultimately surrenders its freedom.

Call the police and send your roommate to jail!

(CPS) - A Wisconsin state law meant to clamp down on domestic violence also apparently applies to dormitory roommates.

The state attorney general's office said in an opinion delivered in mid-October that fighting college roommates can be arrested under the law.

At least three students have been arrested after getting into minor scuffles with their roommates.

In one case, a student spent the night in jail after slapping her roommate. The spat arose because of a disagreement over an iron. In another, a student was jailed following a fistfight that started when one roommate threw Froot Loops at another, who "We're encouraging students to handle their arguments through campus disciplinary channels.

"We're encouraging students not to call the police for minor disturbances of this kind," said UW-Whitewater Chancellor James Connor.

Additionally, orientation sessions include a briefing about the law and a recommendation to roommates that they might want to handle their arguments without involving the police, Kaplan said.

by Mary Brita

Hi! Remember me? I'm Mary Brita, a senior (thank God) from Fort Wayne. I've got two brothers and a sister, all younger than I am. I have a banker dad and a teacher mom, and, I'm happy to say, I'm the proud owner of some of the funniest friends on Earth!!

Boring Stuff First? Okay. "Why'd ya come to Marian?" Because my best friend Andrea went here. (Then she moved to Texas.) "What's your major?" Elementary Education - it's the best and I love it, thanks for asking! OK - onward!

Anyhow, I'm excited to graduate and move on! Hopefully, I'll get the greatest teaching job in the city and stay here for 2 or 3 years, then move south or southwest to where there's sunshine all year! What a place to live! I can't wait.

My darling, funny boyfriend, Brock, and I are working on writing a children's book - hopefully for publication! It's really exciting. I love children's literature.

Mary Brita

What else do you want to know? I'm involved in the Homecoming theme this year - "Homecoming 1990 - Where the Wild Things Are" - and Brock's printing the T-shirts for us. I'm excited for my senior Homecoming to be such a great time!!

In May, I'll be leaving, and if I could leave here thanking a few people, I'd be much happier. So thank you to my instructors in the Education Department, for letting me be a little weird when I needed to be, for putting up with all the back-of-the-room chat, and for allowing my chronic tardiness most of the time. I've been taught by some really great people. Thanks to my friends for just plain being my friends - that's a job in itself, right, guys? Thanks Shione for being my roommate for 4 years and for still liking me. Thanks to my mom, "Kat" for making me feel like a crayon again when I felt like a #2 pencil, and dad, thanks for greeting me with "Hi, precious!" when I call to talk about a lucky day. And to Brock, thanks for us! This rela-

Dear Norm:

I have this problem. I bought my boyfriend an expensive gift while we were shopping together. Since that time we have had our disagreements and ended our relationship. I am offered to pay for the gift that I had not yet given her. Should I sell it to her, give it to my sister, or burn it?

Sincerely,
Lonely

Dear Lonely:

Ask your friends if they know of any available girls in the dorms. Also, be outgoing and attend social events. Get to know your female classmates. Girls, would any of you like to help Lonely cure his problem? If so, drop me a line. -- N.

If you would like Norm to answer a question of yours, submit a letter in an envelope addressed to "Dear Norm." Place it in the Carbon mailbox in the faculty mail room which is located in the basement of Marian Hall. All letters are subject to the rules listed in the Carbon publication box.

THE CARBON 7 November 1990

SEND A MESSAGE TO SOMEONE YOU LOVE STATIONED IN THE GULF.

Desert Fax® service can help you reach U.S. Military Personnel in the Gulf.

A quick note. A silly doodle. A clipping from the local newspaper. They may not seem like much, but to someone far away from home, they can mean a lot. And now you can send these heartfelt messages to a loved one stationed in the Gulf. For free.
