Phoenix Announces Rules, Regulations For Arts, Sciences Research Contest

As was announced earlier, the Marian Phoenix is sponsoring an Arts and Sciences award to the student making the most outstanding contribution to his major field, in the way of research or project.

Two gold, engraved plaques will be awarded—one in each division of the Arts and the Sciences. Judges for the contest will be announced later.

Entries may consist of papers in literature, history, social sciences, mathematics, physical sciences and philosophy. In music the entry must be a musical composition; in such art work as a painting, sculpture, or other such art work.

Testing Program conducted by the Educational Testing Service this year will consist of the recently published Sequential Test of Educational Progress (STEP) in the fields of reading, writing, mathematics, science and social studies. These tests measure critical skills in the application of learning, and will serve as a guide to the student toward further academic work or toward a career.

All sophomores and upperclassmen who have not taken the tests must do so on March 20 and 21, from 8 to 12 a.m.

Senior Comprehensive Examination consists of Graduate Record Advanced Tests in those fields for which such tests are prepared, and a three-hour examination prepared by the student's major department. In fields for which there is no Graduate Record Examination available, there will be two three-hour examinations prepared by the department heads.

Approximate figures for seniors not taking the test must be 1,500 words in length.

In art, there are no restrictions as to the size or form the entry must take. In music the entry may be vocal or instrumental.

Entries must be submitted on or before May 1 by contacting the newspaper editor. Winners and those who submit outstanding entries will have their names published in the Phoenix and their works displayed in school.

All papers will be typed. All entries will be returned before the end of the semester, after they have been displayed. Eligibility is open to all students—full-time and special.

March Assembly Features Juilliard String Quartet

Famous Ensemble Will Perform Selections of Modern Composers

Hailed as “America's greatest contribution to quartet history,” the Juilliard String Quartet is scheduled to perform March 13, 10:30 a.m., in the college auditorium.

Since its founding in 1916 by William Schuman, president of the Juilliard School of Music, the quartet has played hundreds of concerts in the United States, Canada and Europe.

Fr. Reidy Replaces Fr. Wright on Faculty

Father John P. Reidy, of Indiana, has joined the faculty, replacing Father Victor P. Wright as Marriage and Social Ethics class instructor.

Father Wright, native of London, England, and graduate of St. Meinard Seminary, has been appointed assistant pastor-proctor at St. Charles Borromeo in Bloomington, Ind. Since 1945, Father was chaplain at St. Vincent's Hospital for more than eight years, and taught at Marian since September, 1957.

Father Reidy, ordained in 1946, has been chaplain at Ladywood School, assistant pastor at St. Peter's and Paul Cathedral, and founder and first pastor of St. Vincent's College in Ft. Wayne.

Father Reidy will also assume the duties of chaplain of St. Vincent's.

Forum to Present Chemistry Professor

Robert A. Beiknower, Ph.D., is guest speaker Thursday, March 28, at the NOCC lecture on campus.

Dr. Beiknower, professor of chemistry at Purdue University, will speak on the topic, “Modern Finance, As an American Catholic,” at the third in the series of Monsignor Dugan Forum Lectures.

Born in Cincinnati, 0., and a graduate of Xavier University, Dr. Beiknower received his B.S. degree in chemistry from the University of Detroit in 1944, and his Ph.D. degree from Iowa State College in 1947.

He has been a member of the American Chemical Society since 1948 and is the author of numerous technical publications. He has lectured at various schools and religious and fraternal organizations during the past few years.

Engaged Couples Attend Conferences

A series of Pre-Marriage Conferences began on Feb. 23 in the Marian College auditorium. The conferences, held each Thursday, Friday and Saturday continuing through five weeks, will be attended by engaged Catholic couples of the area.

In fields for which no Graduate Record Exam is prepared, the distribution of students in as follows: 3. Philosophy, 2. Economics, 2. Mathematics and 1. Political Science.

The results of the tests will give each senior his percentile rank in comparison with those of seniors in other colleges throughout the nation.

Civil War Roundtable To Meet on Mar. 19

Members of Indianapolis Civil War Roundtable discuss many topics over the years, one so that students, especially those in the history department, will read.

Since Mary Carol, head of the history department, announced that the program will be open,晓得 by group discussion.

Individuals in this formal group specialize in different phases of the Civil War, including contributions, costumes, economic phases, cultural progress, and the like.
Assembly Policy Sad But Necessary

The notice on the bulletin board that assemblies are now compulsory surprised, hurt, or even outraged.

There seems little doubt however that even at the risk of outraging this segment of the student population, there is no alternative.

This argument, of course, misses the point.

Do we have these assemblies merely for our Thursday morning entertainment, to choose as we choose our favorite television program? No, the assemblies are more than that. They are designed to be a part of the educational experience of students. They are part of the cultural life of the college. The school has not only the right but the duty to guide the students in their intellectual development.

It should not be so difficult for the student to devote one hour a month to what his college plans as part of his educational development.

The real point of the article is not whether or not the students should be forced to attend or whether assembly policy is necessary, but the tendency to overlook the interests, especially in technical and scientific fields.

**Players Compete in Play Contest At Whiting, Ind.**

Marian College Players will again take part in the annual winter student-act play festival to be staged by the Indiana Catholic Theatre Conference, Mar. 18-19.

**Supported Dance**

In two episodes, by Dixon Glaspell, cast in the role of Stephen Breuer and his wife, Henrietta, are Robert Kittinger and Margarette Brandy. Norma Tes, their texts consist of test tubes, microscopes, and glass slides.

Among Marian students are seven young women rarely seen gracing the campus. Their names are: Ellen Andrews, Berta Benedict, Marian Br, Janet Hinta, Marcia Niebrand, Patricia O'Conner, and Loe Opal. They are members of the class of 1958 and are called medical technologists.

Many students are not familiar with them or the highly specialized course which will give them the title of registered medical technologist. In June they will receive B.S. degrees.

The med techs, as they are called, receive extensive instruction in all laboratory departments so that eventually they will be able to work in all fields of medicine. For instance, they may be called upon to do a few hours of practical training. In June they will return to the campus to receive their degrees.

Their classrooms are the laboratory of St. Vincent's Hospital and their texts consist of test tubes, microscopes, and glass slides.

**Running Tests in medical technology are Lois Opal (left) and Peggy Darnell.**

At the end of their freshman year they must pass a special examination which will give them permission to continue the course of study. They must then pass the graduate record examinations, attend the dances, worry about their instructors. Sister Marie Pierre and Sister M. Adelaide. Sister Marie Pierre is a professor of biology and Sister M. Adelaide, a professor of St. Joseph, the chapels. The chapel wood-carved statue of St. Joseph, patron of artisans and mechanics, was photographed by Harriett Lawless, the frontispiece.

**Dean's List Names 33 Honor Students**

Thirty-three students were named to the first semester Dean's List. Four had perfect scores of these three points: senior Jean Verhe, Indianapolis; sophomore Judy Forrich, Des Moines, and Elizabeth Thomas, Indianapolis.

**KNIGHTS END SEASON AGAINST CONCORDIA**

Two Marian alumnae performed in the annual March of the Living, held here, and recently the school was honored for this extra-curricular activity. The group of Marian students to observe the ceremony included Father Reine, voice major and regular critic for Marian basketball teams.

**News Briefs**

Chemistry students were conducted on an all-day tour through the Eli Lilly Company Feb. 18. Speech instructor, Mr. William Schenker, planned the touring event for next semester, accompanied a group of Marist students to observe the Purdue Nurses Home Tournament, Feb. 9.

Two Marist students performed with the Columbus choir in a concert presented here Feb. 15 for all men of the city. Wanda Toffalo, piano major, was accompanist. JoAnn Krueger, vocalist, was soloist. The concert was followed by a reception in the Musician Room at Tournament.

The annual Chemical Rubber Co. Achievement awards have been announced for outstanding students in freshman mathematics, chemistry, and physics. Handbooks of tables and formu­

**Swim Team Travels To Ball State Meet**

The Marian College swimming team will travel to Ball State tomorrow to compete in the Little State Meet, an event that they were the best in last year. Other teams in the meet beside Marian and Ball State are Indiana State and DePauw.

**Marian Maids Display Prowess As Basketball Draws to Close**

by Mary Ellen Everman

The Maids of Marian have taken to the basketball court again. With four games played and two more scheduled, the girls are counting on finishing with a winning season. Certainly not wanting in talent, the book of some good practice is probably their greatest drawback. This situation is being remedied, however, with practice sessions every Monday and Thursday evenings under the direction of both Mrs. Clarke and Dick Michels, to whom the Maids owe "a thank you" and possibly a few wins in their coming games.

As the forward spots the Maids have accomplished Sally Coffin, Mary Ellen Everman, Ellis Anderson, Lois Birkenman, Jan Macy, and Freshman Marcelle Kletly and Marcia Logston to center the scoring. Defending against Sally McCann, Sue Levere and Lisa Dun team up with them to make up Marian's 25 point per game mark, to put him very close to the top in high scores. In the two games with Marian, Marcella Pankowski has scored 19 and 25 points respec­tively in their meetings.

Other outstanding Saxons will be Joel Vogel, a 5'10" Forward and Dick Reedeke, a 6' guard besides Waning, Korun, whom shot with short seconds to go provided Concordia with its victory on Dec. 14.

Marian will see another outstanding performance by her big Center, George Waning. George is the team's leading scorer, averaging just shy of 12 points per game, and also the leading rebounder. Besides Waning, Coach Fields is expecting to bill Grenier, Henn Strenging, George Dehart, and Bill Murphy. This game will be the final basketball game for Marian's senior team member, George Dehart. Dehart has been a Knight for four years, and has lettered for three. Although his basketball days will be over, he will be seen this spring on the baseball diamond.

**Lakers Capture Intramural Title; O' Connor, Ripperger Lead Scoring**

Paced by the scoring of Louis Ripperger, the Lakers took the Intramural championship for the 1957-58 season. The Lakers took the league lead Dec. 15 when they upset the Hawks, who entered in second place, and were never headed.

Ripperger finished the season second high scorer in the league with 88 points, one point behind the leader Mike O'Connor, Dwarf Foley, who took the third place in scoring. Dale Toler followed as leading scorer.

Lakers finished 4-1 for the season, and the Hawks were 6-2. The official sports for the Pioneers, Golf and Rivals (6-5) followed in that order.
