DAYS OF OUR KNIGHT LIFE

I am excited that it is the end of the week, but I only get paid bi-monthly and this isn't one of those weeks! When I was growing up my parents always told me to save money saying I would need every cent for college. Being a young naive teen under mom and dad's wing, it was hard to envision running out of money completely.

My vision has became a reality for most of us at MC and we feel the only thing tighter than money is our jeans! We are constantly trying to save by cutting corners in buying used books, pumping our own gas, and mostly by using generic products.

Some of you here receive $500.00 per week spending money from dear daddy and can't relate to this column but mostly everyone knows how it is to be poor.

We get up in the morning and brush our teeth with toothpaste we had to scrape out of the tube in order to keep from buying more and wash our hair with Suave because "It does what theirs does and less"—(It does?) We slip into our clothes purchased from a Bargain biggie store, which would be alright, but most of their clothes are irregular and I hate jeans with one leg 6" shorter than the other! During class, we cringe when a long term paper is due because that will take the majority of paper from our 3 for a buck notebooks which have to last until graduation!

When we go out at night, (on those rare occasions) we always head to the dive bars for quarter beer night because that's only a dollar drunk! (sometimes 50¢!) We also go to fast food heaven stores and order crumbs from Long John Silvers or day old ½ price donuts. Occasionally we do to fine restaurants but 6 of us share one order from the Kiddie Menu!

Poor students rooms are the worst! Ours is decorated with milk crates ripped off from the caf in '79, a street sign we found while jogging, free posters from ad campaigns and Holiday Inn ashtrays and towels. If we had a fire in our room, the total loss would be zero!

However, despite all of the pockets I've searched looking for quarters to do laundry, and all the times I was driving on gas fumes, I have enjoyed being poor. It has given me the incentive to study hard and become successful so someday I can shop in real stores, furnish my home with bought items, and order off of the "grown up" menu in restaurants. Even though I've enjoyed being a happy pauper, you wouldn't have to twist my arm very hard if Howard Hughes has requested me to be his sole heiress!

Booklets are now available in the Student Board Office as well as Campus Ministry for students of all denominations indicating locations and times of services for churches in the Indianapolis area.
This week's issue covers an interview with Mike Henderson, head of MC intramurals, assistant coach of the men's varsity basketball team, and admissions counselor.

Mr. Henderson came to Marian 4 years ago. In his first year here, he headed the intramural program and aided Head Coach John Grimes in basketball. After his initial year, Mike added to his schedule work for the admissions office. The Cathedral graduate feels that the purpose of intramurals is to provide every student and faculty member the opportunity to compete and participate in an athletic or recreational event of his/her choice. He feels that our program offers structured, as well as unstructured atmospheres; structural, being set times and dates to participate and unstructured meaning informal, or whatever the activity might be for that particular night. The best days for intramural activity are Mondays, Wednesdays, and Sundays because classes interfere with the remaining days and nights.

A listing of the fall semester intramural activities appeared in last week's issue of the CARBON. Besides those listed, the possibility also exists for a co-ed basketball tourney after Christmas.

When asked what effect the new Student Activities Center will have on intramurals, Mr. Henderson sounded hopeful that it will allow for a wider variety of intramural sports as well as additional playing space. In addition, better facilities will be available.

To conclude, Mr. Henderson's hope for the program is that the program would offer at least one activity every student would participate in at least once during their stay at Marian. After all, it is our program!
