Delta Epsilon Sigma, Kappa
Gamma Pi Select Members

Twenty-six Marian seniors have been selected for membership in the honor society, Kappa Gamma Pi and Delta Epsilon Sigma.

Those who will be inducted into Kappa Gamma Pi are Maureen Northcutt, Kris Rose, Patricia Dangler, Susan Smith, Diana Herbe, Susan Pick, Fay Faivre, and June Ober.

Newly selected members of Delta Epsilon Sigma are Maureen Northcutt, Kris Rose, Sister Mary Frederick, O.S.F., Patricia Dangler, Susan Smith, and Susan Pick.

The society’s specific aim is to "create and sustain an intellectual and cultural milieu on campus and in life, wherein each individual may realize the intellectual potential that is his/hers and contribute to Christian culture."

All new members will be inducted into their respective societies at the Honors Dinner to be held May 17.

Rule Coordinates
Dress With Place

Faculty vote decided the changes in the dress regulation which were effectuated Feb., 21, 1968. Dress in the library and in the cafeteria, except on the Tuesday of Trunk Week, all other class meetings, and the mentioned dress-up dinners, will be left to the choice of the student. Classroom attire will be expected throughout the week in the administration building.

As a result, the regulation in the 1967-8 Student Handbook concerning dress will be amended to read as follows: DRESS. Cleanliness, neatness and the ordinary standards of good taste will be expected of all students. Formal wear is expected at all times in Marian Hall, Chapel, (cont'd on p. 4)

Fiction, Conduct Reviewed

We Have Always Lived in the Castle by Shirley Jackson contains love and peace within the Blackwood house with suspicion and self-righteousness in the town outside.

At his Feb. 26 lecture in the "Recent American Fiction" series, Mr. William Porter noted that the townspeople set themselves as judges over the Blackwoods and place unreasonable importance upon image than person. After encouraging Mary Catherine and Constance to enter society, Helen Clarke insists that first they must buy new clothes.

Though the jury had acquitted Constance for accidentally poisoning her relatives the townspeople had not. The cruelties of the outsiders forced the Blackwoods to withdraw, while their withdrawal nourished the hatred that eventually devoured the household.

In the same series Sister Georges will speak about The Conjure Woman on April 3. A midwife teacher's painful relationship with his teenage son is the setting for an interplay of mythology and modern fiction.

On a Clear Day

Dr. Heidegger's Experiment is the subject of Miss Emilie Murr's lecture Mon., March 11. A failure as father, lover, husband, writer, and academic, the novel here exposes his own ridiculousness.

Ethical problems, and their solutions posed by the behavioral sciences, are studied in a series entitled "Behavior in Man." (cont'd on p. 3)

Gill Ring Designated Woodrow Wilson Scholar

Gill Ring, a senior philosophy major, has been named a fellow of the Woodrow Wilson Fellowship Foundation.

As a recipient of the award, his name has been sent to all the graduate schools in the nation offering philosophy majors with the request that he be given priority when the school awards fellowships. Gill has already received offers from several schools and is considering those from Notre Dame, Purdue, and Southern Illinois.

In describing his plans for study next year, he says, "I am interested in exploring further the relationships between the fields of philosophy and psychology."

After receiving his M.A., he plans to teach for a few years in college and then to study for his Ph.D.

Gill is one of 1,000 fellowship grantees in the nation.

Gill Ring was nominated by three Marian faculty members and chosen for the award on the basis of a written statement of his academic and personal interests and personal interviews with members of the Woodrow Wilson Fellowship Committee.

Marian To Host ACS Convention

Marian will be host college for the eighteenth annual convention of the American Chemical Society Student Affiliate Friday and Saturday, March 29 and 30. Representatives from colleges and universities in Indiana, Michigan, and Ohio will attend. Papers will be presented to the areas of physical, organic and inorganic chemistry, and to library literature, with awards for the best work presented.

The chemists will be welcomed by Dr. Gozzetta at 7:00 p.m. Friday in the auditorium. Afterward Dr. Peter Y. Paudas of Standard Products Co. of Cleveland, Ohio, will lecture.

Papers will be presented on Saturday, followed by a banquet and presentation of awards at the Marriot Hotel. Mr. Robert J. Kester, consulting engineer from Indianapolis, will act as master of ceremonies and Dr. Ralph Desper, of the University of Cincinnati, will speak.

The Indiana Theatre Company brings Shakespeare's "The Taming of the Shrew" to the Marian auditorium Saturday, March 9, at 8:00 p.m. A mixture of the medieval shrew play and the Italian masque, "The Taming of the Shrew" contrasts the personalities of the blonde, gentle Bianca with the brutish, tempestuous Kate. The "shrewish" Kate must be tamed to order and allow the marriage of her sister Bianca.

By matching Kate's unreasonableness, the devious Petruchio forces her to balance their marriage with compliance. At the end of the drama Kate learns to other wives on the necessity of wifely obedience, and Petruchio has fallen in love with Kate.

Marian graduate Jack O'Hara portrays Petruchio, who, arriving in Padua provides exposition and whose scheme to woo Bianca provides a foil for Kate. Because she has not learned to love through struggle and experience, Bianca fulfills the role of a proper feminine role.

To complete the restoration of order, Shakespeare forces both sisters to reconcile to their respective husbands.

In its third touring season, the Indiana Theatre Company is scheduled to make stops at the minor and collegiate universities in Indiana and Ohio. The "shrewish" Petruchio will graduate degrees in the speech and theatre department at Indiana University.

Garland Anderson Displays Original Works For Piano

A program of works by Garland Anderson of Richmond, Indiana, is scheduled for March 14 and 15. Mr. Anderson will play his own piano pieces. Other musicians will perform Mr. Anderson's works, including three from Indiana State University on Alto Saxophone.

On A Clear Day

Dr. Heidegger's Experiment is the subject of Miss Emilie Murr's lecture March 11. A failure as father, lover, husband, writer, and academic, the novel here exposes his own ridiculousness.

Ethical problems, and their solutions posed by the behavioral sciences, are studied in a series entitled "Behavior in Man." (cont'd on p. 3)

Foreign Officers To Visit Campus

More than fifty foreign officers will tour Marian College on March 17 for an official visit, during the Col. Roy F. Pille of the Business Administration departmen relationships between the several tour of educational and cultural facilities in and around Indianapolis. According to Marian, the officers will attend the noon recital and luncheon at the college cafeteria. The officers will be at Marian so they may experience the atmosphere of an American college.

The PHOENIX
Vol. 32, No. 8
February 14, 1968
Marian College
Draft Deferred of Peace

Elsewhere on this page appear the addresses of two servicemen, old friends who are keeping in touch with Marian. Maybe next year we can deviate the campus life to a more human address, and then this whole page, and paper...

Army life is perfectly suited for young college graduates who wish to continue to learn; graduate school is not necessary for those who must learn to kill. It is also ideal for those who seek to teach, for teaching survival and methods of winning the battle is a part of the military. Graduate school deferments are not necessary except for medical students who must be trained to past their examinations.

Of course we need a defense system; but there are even more flaws than there are tears in the present draft system. When a graduate student applies for his exemption, the guidance of the teachers' draft board tells him he is not critical enough, and this leaves the moral judgment on the value of human life: then, now, is when we must protest. We must tell them that by such inhuman treatment the school brain power and drafting teachers and other professionals they make builders into droppers; in teaching men to kill, they turn us into our own worst enemies.

The rights of the faculty. The role of the faculty, it was argued, is to teach and guide students academically, not to formulate policy on such matters. The faculty is the classroom, the residence hall.

The liberal arts' traditional concern for the growth and development of the student may seem to some sufficient justification for faculty involvement in regulations concerning the safety of the residents of Clare Hall, safety jeopardized, they fear, by regulations allowing unlimited hours. But if neither students nor faculty feel concerned about these particular rules, it will be the latter who will have to enforce them because they make the special rules a part of the general community. The mess of this problem is that the image of the college would hardly be defined.

If members of the student body, the faculty, and the administration are all adequately represented on the faculty, students, and the president of the Student Senate, the committee is an immediate way to approach the issues to be considered. With the help of the faculty, students, and administrators, the special problems of student individuality, academic pressures, and lack of time can be discussed.

Further, if the position of the faculty is strengthened, the general values of the college can be transferred to the student body.

Security Proposals Gain Student Optimism

The security problem, a sore spot at Marian for some time, was discussed from various angles at a meeting held to offer a solution. At press of the debate, the idea of hiring a security guard was definitely hired and the minutes of the meeting were sought. We are impressed by the depth of reasoning in the matter. Students have called for the hiring of a young adult for such a position. A security officer's job should be of service rather than giving tickets, are indicative of the general atmosphere at Marian with the addition of a campus manager.

In an interview which covered the co-operation of the students, problems of parking and the general problems of Clare Hall, Col. Wagner's office is responsible for non-faculty employees of the school.

A common problem for all students is the problem of fresh men orientation. So far none of the orientation programs have a scheme clever enough to fool the new student. They are thinking that fun and games is in the orienting of the student. Everyone seems to ignore the fact that life is in the classroom and in our religious faith outside of the school.

The possibility of an experimental college for non-residency at Marian may be in the distant future, but we would discuss the worth of their existence now. Basically the free university is directed toward the development of the student's capacities and structures and requirements of a societal institution. A new learning environment can be created by less adherence to traditional classroom teaching methods, but this is a slow process and thus integrated into our own experiences. For example, if we are interested, we should be able to discuss not only American university and development but also Chinese, Italian and Arab, incorporating insights such as in negric history.

Although we cannot incorporate every educational reform into the beginning of any experimental course, every form of experimentation, we can make changes in our curriculums and teaching materials, some of which are long overdue.

by Nancy Tungberg

The Selective Service System has taken a step in order to allow for the enlistment of the young men it unfairly favors the college student. Last summer all graduate student deferments were discontinued except for those going into the ministry, medicine and related fields. Now this step has been strengthened and extended to include deferrals for those classified 2-A, the automatic occupational deferment. This system now means complications for the nation's educational system, and makes it even more difficult for the young men to vie for a position in the profession. It may not be the most effective, especially as those who question the war or oppose the draft will be required to stay and fulfill those needs.

Although the draft deferment changes will have an immediate strong effect on Marian College, certain results can be expected as possible nationwide. There may be a definite intellectual gap in those who will be attending next year's graduate school and in those who will be left to teach. Many students will be immediately upon graduation this summer and a number of others will enlist so they can avoid the draft. Finally, it seems likely that draft demonstrations will be on the increase, to the determination of those who may suffer slightly as those men who question the war or oppose the war are sent to fight.

In the final analysis, it will be the local draft board that will act upon these new draft regulations. The military will then be called to the draft and will be able to determine how many boards need to be in the draft and in the training. It will be up to the local board how they decide to fulfill those needs.

Star Opens Eastern Foundation

by Eileen Fleetwood

The Music Department of Marian College will present an "Evening of Non-Western Music" at 7:30 p.m. Wednesday, March 6, in the Music Building. The program will feature a display of musical instruments from India, Japanese and Greek music.

Sister Vivian Rose, head of the music department, will demonstrate Indian music on the sitar, an instrument which has only been played in music circles.

Sister first acquired the facility in the playing of the instrument in the summer of 1966. She was granted a Ford Foundation Award through Indiana University to study the instrument on the Berkeley campus of the University of California.

Doyle Hall Shows "Unsinkable Molly"

"The Unsinkable Molly Brown," starring Debbie Reynolds and Harvey Presnell, will be shown to night at 8:00 p.m. in the auditorium as part of the Doyle Hall film series.

A vast variety of art can be viewed in any one of these collections. The students have worked with oil, watercolor, charcoal, pen and ink, subject matter in music and diversified including still life, woodcarving, drawing, painting, illustration, and ceramics.

Royalty is invited to view the student's work, which is sponsored by the American Mathematical Society "Duke Journal of Math." The annual Mental Health Club conference will include lectures for the math students. The conference will also include a special sidetool in "Teaching of Calculus for College Students".

Marian will host the fifth annual conference on teaching assistantships.

Bean Schedules Math Conferences

Ralph J. Bean, Associate Professor of Mathematics at the University of Tennessee, will present a series of mathematical lectures Wednesday and Thursday, March 6 and 7, at Marian.

Sponsored by the Mathematics Department, Professor Bean's schedule will include lectures for the math students. The conference will also include a special sidetool in teaching assistantships.

Marian plans to hold a conference on teaching assistantships.

Carpe Diem

by Sheila Mudd

Thought flowing, streamling, ebbing only in mediates.

2/28, 08

How do I paint the funny little man who dropped dead today? I can't paint radiant epic pictures because he was a great man...he was a small man who needed to know that he was essential to someone. The painter needed to be admired, to be appreciated, just a little swaggering man with big dreams and a need to communicate. He was my friend.

2/25, 08

When do acquaintances become friends, and friends become lovers? When open souls come into contact with open souls to withdraw from fragile trust.

Today was golden and fret, anticipating the spring smells of mugnet and lake water, the第一批 warm rains and the feel of cool showers. Bright and lovely at the teahouse is in the heart of oriental students. Hopeful as our minds at Dr. Gonzett's seminar on the cold spices Hogs. In fact, the coast superimposed upon Fall Creek. Today...and today.

Knights Wrap-Up Season With A.C.

This month saw the completion of another hard-fought and winning season for the Knights. The 26 game season saw moments of tension, excitement, and skill. Head coach Larry Brodnik, a 6' senior from Indianapolis Sacred Heart, leads the Knights to another championship. He, along with his teammates, enjoy a similar experience as Bob Bittelmeyer, a 6'5" senior from Indianapolis Sacred Heart.

The Knights had a 10-10 record and finished in a tie with the Peons for the WCCF championship. They were one of the few teams to defeat the Peons, and they did so in a hard-fought game.

Girls Huff, Puff With Exercises At W.A.R.A. Clinic

by Dixie Mitchell

"I don't care how sore my muscles feel. I'll have to stretch and exercise my body to keep my muscles strong." This comment is from a Marian Maid who attended the W.A.R.A. Clinic.

The clinic provides a helpful means for girls to improve their physical fitness. The exercises included in the clinic were designed to improve flexibility, strength, and coordination.

Basketball Winners Contend In Atlantic, Pacific Leagues

With only one week of intra-verbal basketball remaining, the winner in both leagues still remains to be decided, with three teams in the Pacific League still in contention. The two schedules remaining in this division are set for Friday, March 3, and Sunday, March 5. In the Atlantic League the last game is scheduled for Sunday, March 5, and the winner will be decided when the undefeated unbeaten for the league championship.

The Friday night games of March 16 had Berger's Boomers defeating Dumbrowsky's Dumplings 84-29. The Pacers defeated Oremus in overtime by a 55-56 margin. The Bruins remained in contention with a 66-22 victory over the Third Reich.

On the 18th there was a full schedule of activity in both leagues. The Peons defeated the Mannah with a score of 120-74. The Peons maintained their high scoring pace with a victory over the WCCF's 62-34. Hill's Angels defeated Professional Students 37-28.

The game of the week will be the Big Eight-Bruin game March 1 at 6:00, the Boozer-Big Eight Game Sunday at 2:00, and the Face-Fun Game at 11:00.

Knights Finish Season With 11-1 Record

The Marian Maids snatched a victory in a hard-fought battle with Indiana Central College on Monday, Feb. 19, in the Reynolds Field House. The Maids led the scoring during the first half with 9-2 in the first quarter, and 21-9 in the second. Indiana Central cut loose in the first quarter of the second half, but Marian maintained its lead and barely finished ahead of I.C.C., 30-24.

Jones of Indiana Central dominated the individual scoring with 15 points. Francis Feistritzer ranked in nine points for Marian, followed by Terre Dimey with eight, Linda Henchel and Dot Mettel with four, Judy DeKemper with three, and Daisy Myles with two points.

On Saturday, Feb. 17, in a sports day at Purdue, the Maids captured three victories from Indiana State (21-12), Indiana University (25-16), and Taylor College.

The Maids downed Normal College in a 41-28 victory Monday, Feb. 26, and U.I. Medical Center (46-14) Feb. 28, leaving them with an 11-win winning streak.

Brodnik Receives Tutungi Award

Saturday night, Marian basketball fans saw the senior class present awards to the five graduating seniors who played a winning game 100-75 against Anderson College. Dr. Guzzetta presented the awards to the St. Joe Bittlemeyer, Larry Schmalz, and Ray Stuck, all graduates of Sacred Heart High School, and to Larry Brodnik of Indianapolis Cathedral.

Father Charles Frazee made the presentation of the first Gilbert Tutungi Award to Larry Brodnik. This is intended to be an annual award given to an athlete, selected by his teammates, who displays the best mental attitude.
