Reagan policy assessed
by Dallice Hesselgrave and Tara Gover

On Tuesday, October 18th, the first convocation of the 1988-1989 school year was held in the Marian Hall Auditorium. Its speaker, Professor Michael Stohl from Purdue University, spoke on “The Reagan Foreign Policy Legacy.”

Stohl highlighted Reagan's strengths and weaknesses in foreign policy. He spoke of Reagan's political message and its contradiction with reality.

Reagan, as Stohl points out, has four basic assumptions in the field of foreign policy. He is a globalist, who sees all issues in relation to the East-West conflict. As a unilateralist, he believes that the allies have a moral responsibility to support the United States, but the United States should be free to act unilaterally as it chooses. As a “city upon a hill,” the United States is what other nations should strive to be; the image for others is more important than the reality. Finally, Reagan practices a foreign policy management that places anti-institutional and frequently under prepared people in positions of power and lets them do their jobs.

Stohl contends that, as a result of the Reagan Administration, the next president will have to deal with a Congress and an American people who are not willing to spend money on defense. He also believes that the two major problems facing the next president will be the Third World debt and regaining Europe's trust.

Dr. Stohl received his doctoral degree in 1974 from Northwestern University in Evanston, Illinois. He has taught political science at Purdue University since 1972. The professor is also the Associate Director of International Education and Research, as well as the Director of Study Abroad.

The first convocation was sponsored by the History and Political Science Department.

Queue up to phone home
by Karla Jo Chrisler

Between the hours of eight and midnight, getting an off-campus line is next to impossible. Four and a half years ago Joe Ryan, Marian College Controller, decided to toss out the old phone system. To the tune of about $215,000, Marian purchased a more modern, state-of-the-art, system. How exactly does the new system work and what are some of the problems?

The new computerized system is much more efficient than the old one. According to Ryan, there are 21 incoming and outgoing lines available. Faculty, administration, and students all share these lines. It would not be practical to have separate lines for the students, since, according to Ryan, there is only a small area of overlap between the hour of 4-5 p.m. when faculty are still at work and the students are out of class.

The new system has a number of interesting features, among them being the ability to monitor phone calls, measure the amount of time the lines are tied up, and where the calls are being made. It cannot, however, tap into the phone and record conversations. Along with these features it can measure the amount of time a student has to wait when the queuing system is being used.

The queuing system is used when all available lines are busy. When a student dials nine and hears three beeps, then this indicates that all the lines are busy. He then hangs the phone back on the receiver and is placed on a waiting list for the next available line. He will be placed on that list for one half hour after which he is automatically dropped. He will be dropped to the end of the waiting list if he

Letters to the Editor

Franciscans’ survey

Approximately two or three weeks ago, the Sisters of St. Francis passed out copies of the Philosophy Statement of their order to the student body and asked the students to respond whether or not this philosophy is being carried out at Marian College.

The Sisters want to know in what areas their philosophy and goals are not being carried out and how such situations can be changed. The responses need to be turned in to the Academic Dean’s Office within the week.

This is the chance for all those students who have complaints and problems to voice their opinions directly to the Sisters. This form is very important. Without student participation in this project, the Sisters will not know where the problems are, nor how to fix them.

The Sisters are very eager to work with the students to make this college better.

-- Raymond List

Fire alarm

The false fire alarm which occurred in Marian Hall at 11 a.m. Monday morning was caused by a maintenance technician that inadvertently triggered the system. False alarm or not, the response to the fire alarm by the occupants of Marian pointed out the need for more practice. In [sic] behooves all of us to exit the building by the most available route whenever we hear the fire alarm. We’ll have an announced fire drill in Marian Hall in the near future. Until then our apologies for any interruption, or, inconvenience.

-- Joe Ryan

Student Board meetings

| Oct. 23 | Nov. 20 |
| Nov. 6  | Dec. 4  |

All meetings are in the Student Board Room from 6 to 7:30 p.m.

Lighter side

by Michael Rinard

The Indiana Supreme Court has ordered Camp “M” President Louis Catlow to offer free tuition, room and board, and books to all students. The ruling came following a class action lawsuit filed by students who discovered that Camp “M” officials had not reported an annual income of $16 billion for the last ten years.

The trees, which have been cut down annually, were allegedly sold to the First National Company who manufactures toothpicks. Campers have always used toothpicks with their meals in the Cafe. Especially on steak night when the campers dine at the salad bar.

Senior John Smythe was pleased with the outcome of the lawsuit. John said, “I always knew the administration was making money by cutting down all of the beautiful trees on campus, but I didn’t know just how much money that was! Now maybe the trees remaining can grow.”

John did state that the Senior class plans to dedicate a small area of newly planted trees to the students who follow them at Camp “M.”

At one time, Camp “M” had close to 500 million trees on the property. Sadly, today they only number 29. (This is probably why “Smokey the Bear” died.) Remember, only you can prevent forest fires.
Senior Profile

by Dallice Hesselgrave

Being accepted to Marian College by accident might have been one of the best things that has happened to senior Dale Kunkle. Kunkle had asked his high school guidance counselor to mail a transcript to Marion College in Marion, Indiana. The guidance counselor made a mistake and sent the transcript to Marian College, which gladly accepted him.

The North Vermillion graduate had never heard of Marian College until then, but he decided to come here. Just one month before classes were to start, Kunkle got his first look at Marian College. He liked what he saw and enjoys attending Marian.

Originally from Perrysville, Indiana, Dale has one sister, who is also attending Marian this year.

The soon-to-be graduate has a double major in psychology and sociology. Kunkle is not exactly sure what he wants to do in the future, but has narrowed his choices down to three: go to graduate school, teach in Illinois, or go into law enforcement. Kunkle is extremely involved in intramural sports and participates in varsity cross country, track, football, and basketball.

He also participates in other activities at Marian including Psychology Club and is a Doyle Hall Wing Representative.

Kunkle has also had the honor of being selected as one of America's Outstanding College Students.

In his spare time, what little he has, Kunkle likes to go horseback riding, water skiing, running, and he also likes to play cards (especially euchre).

When asked if he could change one thing in the United States, Kunkle thought a moment and then replied, "I would change the discrimination of blacks and women and exterminate poverty."

Halloween weekend events scheduled

by Mary Pedtke

If you're ready for fun and excitement this Halloween, be prepared to join the activities at Marian during the HALLOWEEN END!

It all begins on Thursday, October 27th, which is "Kids' Night" at the Haunted House. Kid's Night is for faculty, staff, and alumni kids. On the following night, October 28th, the Haunted House is open for student night. The Haunted House will be located in the basement of Clare Hall. It's open from 7:30-9:00 p.m. on Kid's Night and 7:30-9:30 p.m. on student night.

Another activity taking place during Halloween is the famous Halloween Bonfire on Friday night (probably around 10:00 p.m.). It will be located at the wetlands. There will be music, hot cider, and marshmallows. It's sponsored by the Senior Class.

But this is only part of the Halloween weekend. Saturday night at 9:00 p.m. is the Halloween Costume Ball. It will be in Doyle Hall's "M-Lobby!" Everyone will dress in fantastic costumes. If you don't dress up, you'll feel out of place. So, start thinking now. There have been lots of original ideas. Last year's costume ball brought a caveman and cavewoman, two intimidating bouncers "checking ID's to get in," and a "six pack" of Budweiser made it over from Clare Hall.

Also on the Halloween weekend schedule is the hayride, which will make three trips during the dance.

Be sure to join in the spirit and make this the best HALLOWEEN END ever at Camp "M".

In case of a major power failure things become a little more complex, yet nonetheless effective. At the switchboard there is one line that is not hooked up to the main computer. If there was a power failure there are five lines that revert to outside lines. President Louis Gatto, Bookkeeper Richard Rosenfeld, Ryan, and the operator all have access to the lines if there were to be such a misfortune. However, in the past four and a half years there has been no major power failure and no cause for alarm.
# National Collegiate Alcohol Awareness Week

**Students view new alcohol policy**

by Brian Easterday

The Marian College alcohol policy states that no alcohol is allowed on campus except in designated areas such as the college president's home or non-college functions at Allison Mansion. Supporting the alcohol policy is the college Drug and Alcohol Abuse Prevention Program.

This program was implemented in the fall of 1987 by W.H. Woodman, Dean of Student Affairs. "The prevention program was devised in response to needs of students who are or will be abusers," said Dean Woodman. Since the implementation of the program, the response by students has been mixed.

When asked about the program, freshman class vice-president Dia Walters said that the program is unfair because most students are social drinkers.

Teri Clark, an R.A. at Doyle, responded that it is good because "I think if properly enforced, it helps people who need it and the majority of drinkers are not 21."

Nora Murphy, an R.A. at Clare, felt there are both positive and negative sides. The positive is the consistency of the new policy. The negative side is the forced assessment. Also, people 21 and older are not allowed to drink on campus.

When asked, "Do you feel the reasons for the program are valid?" Walters replied, "No, most are social drinkers." Murphy thought that there is a need to help students who are alcoholics, while Raph Bayless, an R.A. at Doyle, noted, "No, most are experiencing college and part of the experience is drinking."

Tutor program grows

by Beth Peter

Students needing help in classes or those who are able to help others are encouraged to contact either Dr. Rosalie Rohm, Director of the Transition Center, or Lucy Griner, student tutor supervisor at ext. 317.

The tutoring program is growing rapidly. It is only one year old, but already utilizes approximately 40 tutors. The first month of school this academic year, 85 students came in for tutors. As of midterm, that number has risen to 120.

The classes for which students most often need help are the general education requirements including Philosophy, English Composition, Theology, Natural Science, Humanities, Psychology and Foreign Languages. Other more specific classes are related to majors in Accounting, Math (from Intermediate Algebra to Calculus), Chemistry and Biology, Psychology, and Sociology.

Tutors are either referred by faculty members or they can initiate themselves into the program by contacting the Transition Center. Tutors enjoy a number of benefits through the program. Helping other students learn is one of the biggest lifts. The program also aids the tutor in understanding his own field of interest and refreshes the material being covered. It is a good experience to list on a job resume also.

Last, but not least, tutoring is one way to earn some extra cash.

A one credit hour course is required to become a tutor. It can be counted as a one-hour elective toward graduation. The class covers topics such as how to tutor, rules of the transition center’s tutoring program, study habits for students, and how to efficiently communicate. A student wishing to become a tutor need not begin at the start of the semester, though. It is possible to join the program in midstream.

The biggest difficulties, according to Rohm, are getting schedules paired up between tutors and tutees and getting enough tutors for students at the right places and right times.

Lucy Griner organizes all of this by finding tutors, contacting faculty, and coordinating schedules.

A student doesn’t have to be failing a class in order to apply for a tutor. Often students are doing “C” work and just want to bring the grade up.

Griner commented, “We always need more tutors. We welcome anyone that needs help to come in and we’ll do our best to accommodate them.”

Caulkers seal homes

by Shannon Harvey

On Saturday, October 8, a group of Marian students and faculty, under the direction of Bill Pedtke, professor of Philosophy, helped weatherize homes of under-privileged Indianapolis families in this year’s Caulk of the Town.

The program has been in operation for three years. It is designed to help upgrade the homes of economically deprived families who qualify. The event takes place once every year and is done with the help of volunteers. The volunteers are separated into a possible 100 teams, with each team being assigned to a different task. Materials and supplies needed are donated by area businesses.

The Marian group of volunteers comprised a weatherizing team. Their task involved general repair; for example, fixing broken windows, securing doors, and insulating for the winter months.

There were twelve individuals from Marian who chose to donate their time and effort. The students, along with others, spent about seven hours on one home, helping that one family tremendously. Junior Michelle Scheidt commented, “It was really sad to see the situation these people have to live in. I’m glad we could make some kind of difference for them.”
MCSA discusses student complaints

by Shannon Wichman

The Student Board met on Sunday, Oct. 9, at 6 p.m. in the Student Board Room to discuss student complaints and upcoming activities. Student Board President Ellen Frommeyer opened the meeting.

After the minutes had been read, reports were made on various student board projects. The first report concerned the ice house. The school has agreed to pay to have the ice house done by Family Day. The ice house will not be used as a student center, but only as a picnic area and shelter.

Next, the budget for the year was passed out, discussed, and approved.

The Social Planning Committee reported the success of the "Miss Masculine Marian" contest with special thanks going to all the clubs that participated.

Kent Cook reported for the Academic Affairs Committee. The Music Department dropped its required instrumental class and added a required conducting class. In the Biology Department, the required Human Anatomy and Physiology has been changed to Cell Anatomy and Physiology. The new Fashion Merchandising program has also been approved.

The Student Affairs Committee reported that the Dean recommended three steps be taken before expansion of Clare Hall's security system to Doyle Hall. Also reported was the arrival of Alverna's new washer and drier.

The freshman class reported the success of the pizza eating olympics. The sophomore class had no report. The junior and senior classes were not represented.

Doyle Hall reported that they are sponsoring the Halloween Dance. Booster Club is sponsoring the Homecoming Dance and Ellen Frommeyer won the contest for the theme song with her entry of "Hold on to the Night" by Richard Marx.

Campus Ministry sponsored a mass at the Marion County Jail and participated in Caulk of the Town. They will sponsor the Thanksgiving Soup Fast on Nov. 21 including a mass at 4:30 p.m. Cook reported on Family Day, registration begins at 10 a.m. on Saturday, October 22. Dr. Gatto will present the program and lunch will be available.

Following the committee reports, possible topics were discussed for the Executive Meeting on Oct. 17. Topics included a request for a telephone for commuter students with an outside line, the possibility of replacing ARA with a new food service, Doyle's request for a study room, an update on the Student Union Building, and dorm upkeep.

Council acts on withdrawal policy

by Tina M. Kunkler

The Marian College Council voted against the Academic Affairs Committee proposal concerning withdrawal deadlines for the academic semester by a 12 to 11 roll call vote and accepted the Security Committee's proposed goal for campus security by a majority voice vote at its Oct. 11, 1988 meeting.

The proposal would have advanced the dates for withdrawal by three weeks, making them congruent with other calendar events. After a lengthy discussion concerning financial aid eligibility, special reasons for withdrawal, and problems with mid-term evaluation, the roll call vote was taken and the changes defeated.

Bill Pedtke, Sr., presented the Security Committee's goal statement for campus security to the Council for approval. The statement is as follows: "The proper goal of Marian's Security personnel and system is the prevention of and protection from any and all real or threatened interference with the physical well being of the Marian College community, including its persons, their property, and its facilities." The Council accepted the statement.

The Council approved a new math course, Problem Attack, for the Mathematics curriculum. This new course, available in the fall of 1989, will meet general education requirements for students who want a math course but lack the math skills to take Intermediate Algebra.
V-ball record stands 18-7

by Stephen Tweddell

During the past week, the Lady Knights took on Franklin College and Indiana University Southeast (IUS).

Against Franklin, they won the first game 15-8 before dropping the second two games 11-15 and 12-15. The ladies came back to win the next game 15-11 and lost the final game 5-15.

Amy Beckham led the Knights with 21 kills, followed by Terrill Reed who had 17 kills. Jodi Yonts and Tina Meyers had 7 and 6 kills respectively. Julie Herbstrith and Sharon Effinger each had 5 kills.

“We played well at times. We just had some bad spots, but we played okay overall. Franklin played well which made it tough,” said head coach Molly Totten.

The Lady Knights fared much better Thursday night as they dumped IUS 15-8, 15-11, 11-15, and 15-4, as the entire squad got a chance to play.

In kills, Herbstrith and Yonts each had eight; Effinger, seven; Reed, five; and Beckham and Kate Murphy each contributed four. Also contributing to the win were Donna Wetzel and Kateri Amberger with three kills each, Sarah Bauman and Meyers with two apiece.

On the year, the record is an impressive 18-7. Up next for the Ladies is the Manchester Tourney.

Freshmen baseball prospects hopeful

by Jeff Redenbaugh

The freshmen and newcomers to this year’s baseball team are looking good.

The freshmen include the Greensburg Connection consisting of Craig Reynolds, Rich Messer, and David Ferguson. Reynolds, according to Coach Lynn Morrell, “can be developed into one of the team’s finest pitchers with the guidance of pitching coach Bret Shambaugh.”

Morrell says that Messer “is a good defensive outfielder and with some batting practice he can be a good hitter for the Knights in the future.”

Ferguson “has developed rapidly in the fall and could be a future prospect,” said Morrell.

Other freshmen players that compose this year’s baseball team are Mark Bennett from Ben Davis High School; Steve Cooper, Mt. Vernon; Brian Davenport, Rosedale; Jeff Lyons, Hamilton Southeast; Chris Smail, Covington; and Doug Hornback from East Central.

Lyons, a shortstop, is described by Morrell as having “a strong arm from shortstop and he will be the future shortstop for the Knights.”

Smail, a right-handed pitcher, is “a sidewinder; Shambaugh has got to teach him the art of pitching and he will probably be a reliever,” Morrell comments.

Hornback is another right-handed pitcher. Morrell remarked that “the jury is still out, he was out of the fall session of baseball due to tendinitis, which caused him not to perform well.”

The only transfer on this year’s team is Danny Johnston, who transferred from Milligan College in Tennessee. He will fill the role of a utility infielder. Morrell says that Johnston is “a good baseball man, he has a lot of savvy.”

Knightly notes

Sr. Mary Carol Schroeder will be speaking at the October 20th Lunch and Learn. She has recently returned from New Guinea and will address its current political process. The program will take place in the West Dining Room from 11:30 - 12:30. Everyone is invited to bring lunch and learn about New Guinea.

REALLOCATION for $355.84 will be voted on Saturday, Oct. 22, at 10 a.m. Any club or organization interested in additional funding for this year please submit your request to Corinne Collings, Treasurer of Student Government, on her mailshelf in Student Activities Office by Friday Oct. 21.

The Health Center will be closed on the following dates in October: Wed. 19, Thurs. 20, Fri. 21, Wed. 26, Thurs. 27, Fri. 28. R.A.'s and the Student Services office will handle medical problems during this time.

NEEDED: Ushers for Taming of the Shrew, this Thursday, Friday, Saturday, and Sunday. Contact Frank at ext. 102 as soon as possible.

ACS Activities: Sunday, Oct. 30, videotape. Friday, Nov. 18, trip to Police Forensic Lab. Sunday, Nov. 20, trip to Chicago: Museum of Science and Industry, Field Museum, and Aquarium. Details to follow. All are welcome. Call Katie Carson at 180 for questions.

STRATFORD TRIP: There will be a short meeting of all those going on the Stratford Theatre Trip which will be held at 6:30 p.m. Oct. 26 in Marian Auditorium. Remember that you will need to pay for food and possibly additional entertainment, so coordinate your finances before this date. We will leave on Thursday, Oct. 27, at 4 a.m. Off we go!

AUDITIONS for Christmas Carol will be held at 7 p.m. in Marian Auditorium on Monday, Oct. 31, 1988. There are lots of good parts for men, women, and children, too. Beginners are welcome. If you would like to read the script first, copies are on reserve in the Library. Contact Dr. Edgecombe, ext. 292, if you are unable to make this audition.
