Course policy changes

Students may repeat a course in which they received an F with the intent to raise the scholarship index. A course in which an F grade is earned may be repeated once, which is rejected at another institution, with permission, will be accepted if the new grade is C or above. The NEW GRADE AND CREDIT REPLACES CARBONAL F IN COMPUTING THE GRADE-POINT AVERAGE. All courses attempted would be listed on the student’s records.

This policy change involves certain principles:
1. Permission to repeat a course at another institution must be granted by the Dean of Academic Affairs, after ascertaining that it is a course comparable to the Marian course. (Repeat of F)
2. In making decisions regarding repeating a course at another institution, discussion would be held with the department involved.
3. Permission is not required to repeat an F course at Marian.

With the permission of the Academic Affairs Committee.

Publications meet

On Thursday, March 4, at 4:00 p.m. the Publication’s Committee, Academic Affairs Committee, and the IORETTI (literacy anthology), will meet to appoint editors for the four campus publications and to manage the darkroom.

Persons interested in these positions should attend this meeting so that full consideration can be given to them. The four campus publications are: the CARBON, the PHOENIX, the MARIAN (yearbook), and the IORETTI.

If you are not interested in editing, but would like to work on any of these publications, you should contact the editors or the new editors after they have been appointed.

Approximately one hundred persons in attendance Wednesday evening, March 3, from 9:00 a.m.-2:30 p.m. to take the order, cap, gown, and hood for graduation, payment is due on delivery. The orders will be distributed on Wednesday, May 9, 11:00 a.m.-4:00 p.m. This is the last time the representatives will be on campus.

Orders should be placed for cap, gown, and hood even though a senior may not be certain of graduation, or not certain whether he will have to repeat “his” institution.

“Billy Jack,” the next Doyle Hall film, to be shown at 8 p.m. March 7 in the Marian Hall Auditorium, is a motion picture of great honesty and integrity. At preview after preview, in city after city, this absorbing, powerful film has elicited an incredible response to the complete honesty of its story and presentation.

Tom Laughlin and Delores Taylor star as the half-Indian Billy Jack and the anti-Jewish directress of a Freedom school whose doors are open to all kinds of students. When local townpeople turn to violence in an effort to close the school, the two fight together to save it.

Among the many impressive moments in the film are an outstanding Karate sequence, an authentic Indian rattle ceremony, a bitter confrontation between youngsters from the school and the town council, and two wonderfully comic improvisations by the San Francisco-based “Committee.”

The strength of its force to stars Tom Laughlin and Delores Taylor, this sincere and movie film should not be missed.
ALL POWER TO THE MINORITY

I have a few things to say about Dr. Gatto's letter of February 21 concerning the Guest Hours Policy. In his letter (now that you've dug out your copy, paragraph two) he states that approval of the policy by the Board of Trustees was "a sincere expression of confidence" that staff and students could implement and use the policy properly. How sincere could they have been if "virtually every trustee had some reservations concerning the policy?"

In paragraph three we are informed of the great benevolence on the part of the Administration in not reacting to initial difficulties that arose.

Paragraph four deals with "an obvious violation...involving a number of students." [Italics are mine.] Now that we're all clear on what should not be done and who should not do it (and what actually happened), we can proceed to a discussion of what the Board of Trustees has done concerning the policy at this time (cf. paragraph five).

"At its February 14, 1973 meeting, the Board, feeling there had been a breach of good faith," [or a confirmation of the reservations they earlier felt?] "considered the possibility of immediately terminating the policy." Action was deferred until the April 11 meeting of the Board when the policy will be evaluated and further action taken.

I can just barely verbalize my feelings on paragraph six (the last and final paragraph, finally). It is an insult to my intelligence that the president of an institution of higher learning (as Marian claims to be) can be so blatantly hostile. His one apparent point is apparent enough to me. "If the policy is terminated, the cause will not be the Board's inability to accept the Visitation principle," [which they never wholeheartedly embraced] "rather it will be the inability of a minority of students to utilize the policy" properly. "It is not the principle and tenets of democracy applied in their most obvious form -- the minority determines the fate of the majority."

If we can find any reason to take the policy away [a policy that was "granted...by a great mandate from above in the first place"] we're going to take the opportunity as it presents itself. We're giving you a warning so you feel it's more fair when we finally do take it away -- or all, we need a few persistent rumors.

This is what I feel the Board and Dr. Gatto are saying to me as a student -- and I am disgusted by it.

Dr. Gatto goes on to finish, "had the trustees desired an excuse to end the Guest Hours Policy, a few thoughtless students certainly cooperated by providing one." If I am to assume that this memo, as well as the "De­

namic Catholicity" memo, reflect Dr. Gatto's feelings concerning students, he should not be involved in any way with anything concerning education.

I find the whole memo insulting to me as both a student and as a person. I find the whole memo insulting to the image Marian tries to project--that of a liberal arts institution. I should be ashamed to have anyone of any intelligence subjected to its insults and the fact that it came from the Office of the President of Marian College.

The following was sent to the Office of Student Services two weeks ago:

To: The Office of Student Services

Subject: Evaluation of Guest Hours Policy

We the women of Clare Hall would like to bring to the attention of the Office of Student Services our own evaluation of our Guest Hours policy. Although we have experienced some flaws and abuses, we feel that after a semester with this policy, we have developed a respect for the policy.

Throughout the semester, the women of Clare Hall, do not condone these abuses, we feel it is more beneficial for the hall to take positives rather than negative action. The positive action we have taken is it is simply respect for this policy and all others. Rather than seeing what we can get away with, we feel the importance lies in how we can better and keep the present policy.

Women of Clare Hall

To the students of Marian College:

During the past week, a letter from Dr. Gatto was sent to all residents of Doyle and Clary Halls. The subject matter of this letter was the "Visitation hours policy," bringing to the students' attention the fact that "there is a minority unhappy with the attack" from the Board of Trustees.

I do not wish to question at this time the presentation of the letter and its possible inadequacies. I should rather like to direct a question or two at the "minority" the President referred to as well as the "silent" majority.

Last year when the idea of a policy of such nature was brought up, a group of individuals took the initiative and after quite a few months of meetings, discussions and evaluation presented the policy as it presently stands to the Board of Directors. Needless to say, the results of the hard work is obvious.

But now I see that a few individuals have taken it upon themselves to show the College-

directors, Faculty, and other students alike, that they would just as well see the guest hours policy scrapped. Evidently these individuals feel that the best way to show their appreciation to the Guest Hours Committee for all their work is to kick them in the face and scream "You are a 20 year old individual accepts responsibility."

Giving that you may not feel that there is even a need for a policy as such, the fact remains that there is a majority of people of the school that feels that a policy is necessary.

So, we find ourselves in the situation of either the "minority" of the rest of the students, the "silent majority," those individuals who evidently feel there is nothing they can do to change the guest hours policy. I have often wondered when people who have made it clear their individual rights and freedoms are NOT going to be other; why these people, when their rights are on the verge of being attacked, don't do one thing to help themselves. It appears they'd rather remain in this minority and cannot understand how the "silent majority" feels.

As a junior and a day student, I assure you there are people on this campus, the integrity, determination and self respect of which make them stand out far above the average individual. Some of these people have expressed of starting to look at views as do I. But surely, doesn't everyone have self respect?

Why does it always have to be that the vast majority of the people in this school are "controlled" by a minority of their fellow classmates (if one wishes to call the such)?

I hesitate to again bring up the idea of self respect but nonetheless, I will. And I feel that everyone should re-link the topic. For as Joni Mitchell once wenty: "Don't it always seem to go that you don't know what you've got till it's gone." Don't wait till it's gone. Jon Randall

What’s going on

A lot of people still have this term “dynamic cathodility” fast­ering in their heads. I, like many others I suppose, know litt­le about what it is supposed to mean. I still haven’t decided if it sounds like a curse or a disease.

“Dynamical Cathodility”” The February 16, 1973 article finally shed some light on the subject. It seems that not even the most experienced men knew what the term means. So, I came up with the following theory.

The inability to decide what is right and wrong religiously and otherwise is the problem itself.

Remember Hamlet? He had the same problem. He was always going around soliloquing and stuff. But he just couldn’t make up his mind.

Tomay, Hamlets can be seen on every street corner. You may notice them at Dunkin’ Donuts pondering their selections in­

tensely, or searching for the ulti­

mative deterrent.

I feel that the major cause of our problem is that we have
two sets of values simult­aneously. Our religious upbringing

tells us “Love thy neighbor as thy self” and “turn the other cheek.” Our society often makes us sus­picious of our neighbors and also lauds violence. Our religious upbringing teaches us to worship God while our society teaches us to worship the false gods of status and money. How can you commit every other word what dynamic
cathodility is when our society as well as our school

values both of these values.

By the way, just what are we often teaching in the name of reli­
gion. I am sure in some reli­
gious circles, L. Calley was not denounced. At times he be­

began to think that there are some men similar to Calley in the Bible, but they were not heroes. The Church Christ to the cross, and he said, “Father, forgive them for they know not what they do.” Also, my memory may be faulty, but I don’t think that the apostles were GM execu­
tives.

And things will get worse be­

for a fore they get better.

What’s going on here? by Bob Mone
Knights lose ticket to Kansas City

The Marian Knights, led by energetic second year coach Ed Schilling, received a somewhat unexpected gift Thursday when word was delivered that the blue and gold, despite their deceptive 12-11 record, had been awarded an NAIA District 21 pre-playoff berth. This means that the Schilling squad gets to renew acquaintances with archrival Earlham, the team that defeated Marian in the tourney last year.

Comparing to Franklin to play the Grizzlies for the right to claim the title of the top independent team in the state, the blue and gold were thumped soundly in a game that featured four technical fouls called on Schilling for contesting a call made by an official.

Marian fell behind early, and, although they fought with all their might, couldn’t quite catch up. Narrowing the gap to 5, midway through the second half, the Knights were tiring the tide when Franklin ran off 6 straight points to put it out of reach. The game ended 90-75, and with it appeared the playoff chances were none too good.

But lady luck smiled on the Knights, and, with the aid of a cooperative referee, they got off to a very good start in the opening quarters, and kept adding to it in the succeeding quarters. Marian committed a whopping 30 and 10 turnovers, respectively.

They, on Saturday night, Coach Schilling took the Knights to Kentucky State. The less that is said about the game the better.

The defending national champs buried us 108-71, as we submitted a whopping 37 turnovers.

Apke had 18 to lead the way, and, with freshman Brian Wallace contributing 12.

Reserve coach Mike Riesen’s troops also fell at Franklin, in only their second loss of the season. Mike Scioto and Bob Nettles both had career highs, gathering 30 and 4 big points respectively, while Don Masten and Robbie Robertson excelled on defense.

The Knights ended the basketball year by falling to defeat at Earlham 116-52 in a play-off game held at Richmond last night.

Fresian Brian Wallace led the Knights with 24 points.

Intramural playoffs are drawing near

Except for three games, the regular season is over and now teams can compete in the league playoffs.

In Sundays action, the Rim Shakers defeated the No Nameers 51-31, with the No Nameers losing 14 points. Although unsuccessful, an attempt was made to keep the game going by giving him a good playing time. But Fisher outstripped Borce, as 1st place went to the gym practicing from 7:00 a.m. until their game, Steve “the green” Barrett was strong on defense.

Oderius Complex with their famous offense, having the year, Roger Brangam’s sparkling 22 points, balanced scoring, and Mike Marmor’s strong rebounding defeated Social Pros 72-34. Steve Bickley scored a strong 14 points for the losers. The Dry, Heaves smoked U.W. 1. 56-37. However, Harry “garbage put” Dorst and Chris “stomach” Stinger scored their first points of the year with 2 and 4 respectively. Ken Oller led all scorers with 24 points. “Toad” Horbach jumped in 10 points for U.W. 1.

In a purely physical contest, MFIC lost, at will, to the Hoofers 73-67. The losers, it is rumored, are losing on purpose to attain a playoff berth to their liking. Dave White with 39 points and Lynn Morrell’s 16 points paved the way to a faculty victory, while Rick Martin netted 28 points for MFIC.

The rotating Golden Nails with Ray Burges 20 points, and Dan Bauer’s strong rebounding pounded Wan-It-Awazi 44-34. The losers with only nine first half points, held the same mark at the end of three quarters. In the final quarter, they exploded for 25 points, but they still fell short. Mike Hall baged 18 points in the losing effort.

Scrubby Player of the Year... Seeing this will be the last regular season award, a special choice has been made. Though many outstandingly poor players, received nominations, Maurer, Simko, and “Scrubb” Fisher, the award goes to me, Kenny Tyrrell! Not that I’m as scrubbly as the previously mentioned players, but I deserve it for giving all you great guys so much garbage. I really would like to thank everyone for taking these articles as good sports and for cooperating with me as reform as possible throughout the season. Good luck in the playoffs.

The baseball team is currently working hard in preparation for their upcoming season. Taking advantage of the warm weather are pitcher Gary Walkerson, batter Rick Martin, and catcher Ken Oller.
