President Guzzetta Resigns

Dr. Dominic J. Guzzetta, the first lay president of Marian College, has announced that he will become President of the University of Akron on August 1. Guzzetta will return to the University of Akron in January 1978 to serve as President of Marian College.

Guzzetta has come up with a number of new ideas that he believes will be of great benefit to the University of Akron. Among these ideas are a new library, a new science hall, and a new art museum.

In retrospect of his term as President, Guzzetta cited the transition from a predominantly religious institution to a predominantly administrative institution as the accomplishment of which he is most proud. The changes that were called for and which were instituted helped Marian College stay in the mainstream of higher education. We accomplished what we set out to do, and in that I feel satisfaction," Guzzetta explained.

The decision of leaving Marian College was not an easy one for the president. "I leave Marian with mixed emotions. After weighing the pros and cons of the move, I decided that at this point in time and for this particular institution I feel that the pros outweighed the cons in favor of a move," he commented.

Between now and August 1 Guzzetta has plans to complete with "duties as though I will stay forever-I will not be a lame duck president."

Some of the staff of the PHOENIX has come up with what we think is a groovy idea and a lot of fun-a Road Rally. For those of you who don't know what a road rally is (myself included), it's a 'competitive automobile race run especially over public roads.' That definition is straight from Webster's Seventh and is exactly what we have in mind.

The details haven't been worked out yet-we're not even sure we can have a road rally. Generally, the idea is to set up a series of checkpoints which a driver and a navigator must go through in a certain order and within a certain time. The best time turned in wins the prize and there may be a dance the evening after the race in honor of the winners and all the other participants.

We're hoping to be able to hold the race Saturday, March 27 at 12 noon. It will be entry fee, but the prize money ought to make it a worthwhile investment. Besides that, it should be a lot of good, homespun fun.

Where we start, finish, and the points in between are going to be worked out later on if we get enough positive response and support to go ahead with the project, it may turn into a really great annual event and we'd like to see just who has the better car and who is the better driver. There'll be a special issue of the PHOENIX for the rally and the dance afterwards.

Let us know what you think and we'll keep you posted on the general game plan until Rally Time. In the meantime, drive carefully.

Steve

To Run Or Not To Run

Some of the staff of the PHOENIX has come up with what we think is a groovy idea and a lot of fun—a Road Rally. For those of you who don't know what a road rally is (myself included), it's a 'competitive automobile race run especially over public roads.' That definition is straight from Webster's Seventh and is exactly what we have in mind.

The details haven't been worked out yet—we're not even sure we can have a road rally. Generally, the idea is to set up a series of checkpoints which a driver and a navigator must go through in a certain order and within a certain time. The best time turned in wins the prize and there may be a dance the evening after the race in honor of the winners and all the other participants.

We're hoping to be able to hold the race Saturday, March 27 at 12 noon. It will be entry fee, but the prize money ought to make it a worthwhile investment. Besides that, it should be a lot of good, homespun fun.

Where we start, finish, and the points in between are going to be worked out later on if we get enough positive response and support to go ahead with the project, it may turn into a really great annual event and we'd like to see just who has the better car and who is the better driver. There'll be a special issue of the PHOENIX for the rally and the dance afterwards.

Let us know what you think and we'll keep you posted on the general game plan until Rally Time. In the meantime, drive carefully.

Manasota Lobbies G.A.

The General Assembly convened on January 12 with an unwritten charge to 'hold the lines,' spending, relieve the property tax and listen to the people.

What is at stake for people needing psychiatric care? Program cutbacks. The cutbacks to the line is 'unthinkable.' In this new year, we need to face the combating problems of drugs and violence, economic stress, and unmet needs of children, the demand for more effective short term programs, private services and state hospital care.

Tax money spend to accelerate mental health programs will spare thousands of us unnecessary suffering and loss of production, to say nothing of great public expense. The Mental Health Association will bring the needs of the mentally ill and handicapped to the General Assembly. We will supply legislators with information, convey to them the wishes of our members, and press for a fair share of the tax dollar for mental health services.

With your help this can be accomplished. Read our legislative goals described below. Send us the form and or you as a legislative volunteer. If every member and friend of the Mental Health Association is informed and concerned, we could do much more than 'hold the fine.' We could go to the citizens of this state that due to a 26th century program of psychiatric and supportive care that would allow them to give their best back to the community.

Legislative Objectives

Problem: As Federal funds given to construct Centers decrease, local governments must assume more and more of their support. To keep the Centers open, local communities must provide a share of each. A pack should be increased to 4/.6

Problem: The level of nursing care in Indiana State Hospitals is far below minimum standards as shown by studies to determine Staffing for Patients Acute Needs (S.P.A.N.). For example, nursing time does not permit chronic patients even one bath per week in State Hospitals.

Legislation: Budget increase to upgrade level of nursing care to minimum standards of S.P.A.N.

For the government, SCOPE is a fresh means of getting fresh viewpoints on the environmental issues. Government agencies are able to request student study and recommendations on specific points and issues.

SCOPE is composed of students at the high school and college levels. It was formed out of seminars in each of the Federal Water Quality Administration's nine regions across the United States. It is funded by the FWQA and new government resources in accomplishing its function. However, membership is determined by students, government employees do not interfere with the organization's activities and policies.

Any one interested in tilling the Indiana vacancy should write to Roger C. Ward, e/o SCOPE LETTER, Room 52-45, 4670 Columbia Parkway, Indianapolis, Ohio 45219.

Estimation: With an estimated 1,000 heroin addicts in Marion County alone, and an underdetermined number of young people succumbing to the effects of 'hard' drug abuse, the respondent's treatment programs must be quickly assigned and carried out.

Legislation: To provide adequate funding for Community Mental Health and Retardation Centers, it is proposed that a pack of $4/.6 should be increased to 4/.6.

Problem: The level of nursing care in Indiana State Hospitals is far below minimum standards as shown by studies to determine Staffing for Patients Acute Needs (S.P.A.N.). For example, nursing time does not permit chronic patients even one bath per week in State Hospitals.

Legislation: Budget increase to upgrade level of nursing care to minimum standards of S.P.A.N.
Meine Lieber Marian

This is the 1st issue of the 1971 New Year and the 1st of the second semester, I don’t think it would be fair to my successors if I made some New Year wishes. “The way of the Phoenix,” I’m only the editor until I’m replaced in April. But I can put some thoughts down for you and my successors to think about for this New Year and every New Year to come. I’ll start with a short quote:

“The streets of our country are in turmoil. The Universities are filled with student-belling and rioting. Communist nuclei are seeking to destroy our country. Reality is confronting us with her might. And the revolution is in danger. Yes—danger from within and without. We need law and order!...ours is a different order; our nation cannot survive...”

Agnelo Kitten

With the rate of unemployment being five percent level and interest rates at all-time high, the Nixon administration must grapple with the crucial problem of losing public money, but also institute currency and economic reform. The present rates are unsound, and if allowed to continue, they will lead to depression. The following suggestions could save jobs from extinction, and create a new prosperity.

A. A 24 month wage and price control period, then a 48 month period of partial control.

B. A 24 month anti-strike-decrees, than a period of 48 month compulsory arbitration.

C. An excess profits tax on ‘big business’ firms, for a five year period. Oil depletion allowance lowered to 14% from present 20%.

D. Lowering of 50% the margin for buying common and preferred stocks, for a 24 month period, than a fixed level of 75%, for an indefinite period.

E. Thirty to forty cents of every dollar to go gold, silver backing. The price of gold to be $46.00 per ounce, from the present $35.00 per ounce level. A 25% gold devaluation allowance also.

F. The seven and one half percent investment income tax credit to be given to small businesses only. Then, the level to drop to 5% by the end of 1980. This would aid Nixon’s ‘black capitalism’.

G. Redeemable gold certificates, stocks, and bonds to banks and financial firms who give preferential treatment to small businesses.

H. Greater and tougher law enforcement of anti-trust, anti-monopolist laws. This will stop corporate group price fixing, that causes much inflation.

1. Basic reform-taxation system. Lowering of the income tax, and a 4 percent national sales tax, and a one percent national services tax.

2. J. Social Security taxes invested in private investment return industries. Social Security also to sell own stock to the public. The present Social Security system is finished.

K. Exempt church and government income producing lands and firms to be taxed. Tax loopholes and tax dodging to be stopped.

Now is the time for economic reform, not rhetoric.

Tuesday, Feb. 9: Psych lecture at 10:30 a.m. in the Library Auditorium. At 12:30 p.m. in the MH Thaw, the second ‘Civilization’ film, ‘The Great Thaw,’ will be shown to the college community free of charge. It’s really pretty good stuff, even if you don’t like Humanities. Faculty Council meets in room 207 at noon.

Wednesday: Sociology Comprehendies in room 207 from noon to 4 good luck! At 7 p.m. St. Vivian Rose Mewechat will lecture on ‘piano Instruction’ in the Music Mansion. At 8 p.m. Miss Murray of the English Department will lecture in the Library Auditorium on ‘Literature and Film.’ ‘The Turn of the Screw’ Also at 8 there a meet- ing of the SEA in the MH Study Lounge. There’s another lecture at 8:15 in Room 207 by Mr. Frank Haves, CFA, on ‘Investments.’

Thursday: At 10:30 a.m. the Library Auditorium will host another Psychology lecture. Friday: Lincoln’s Birthday and not much else.

Letters To the Editor

Get It Straight From A Lord

Beginning last Monday evening, February 1 at 8 p.m., Marian College and the Indiana Mu- sium of Art will present the ‘Civilization’ film series free to the public in the College Au- ditorium. It will also be shown free to the students the follow- ing day, 12:30 p.m. in the Au- ditorium.

‘Civilization,’ written, directed and narrated by Britain’s most noted documentary filmmaker, Kenneth Clark, leads viewers through the last 1,000 years of mankind. ‘Civilization’ is recorded in all the various arts: medium, architecture, sculpture, painting, music, poetry, philosophy, drama.

Filmed in color by the Brit- ish Broadcasting Corporation, the 52-minute long films are made available here through a joint grant from the National En- dowment for Humanities and Xerox Corporation to the Na- tional Gallery of Art. They are distributed free to colleges and universities of less than 2,000 students on the condition that the recipient provide a free showing of each film for the pub- lic, as well as another showing for its students and faculty.

Lord Clark introduces his audience to his ‘Civilization’ with the ‘Frozen World’ when the first civilized ideas from 5th Century Greece and which were reintroduced to we- stern man when Charlemagne re- established contact with ancient cultures.

Throughout 996 of the 12th Century cathedrals, the Gothic world, 15th Century architecture and ar- chitecture, the achievements of the Renaissance, the vistas made possible by the, the Gutenberg printing press, the Counter- reformation, in Rome, the sca- vasses of the 17th Century Dutch paintings, the music of the 18th Century composers and the period’s art and sculpture, the transition to the worship of nature and the revolutionary ac-

Internationally Speaking

A recent survey of men in the streets, fields, stores and workshops of today's world has a few surprises. If ordinary people of the world followed only what interests them, there would be bread and circuses and not much else. Isolationism would carry the day for a while at least. Nations would dissolve into villages and neighborhoods.

Optimism prevails over pessimism. Certain thoughtful men feel these may be considered the golden years for some people of the word; when historians of the future look back. Gloom and doom dominate in some countries. Still, most people seem to see things in terms, with better days ahead.

Proposed sharing of federal taxes with States and cities would help those governments with their money problems—a fresh approach to a major headache. However, readiness by Congress will delay the impact of Mr. Nixon's ideas for months or years.

Now, of course, there's the Vietnamese war. It gets some opposition from a few teachers. Some support it. But a vast number of professors who know perfectly well what's happening, are opposing it again. And in the high schools, you can forget it. Stills reign.

It could be that academic training itself forces a split between thought and action. It might also be that the trained security of a teaching job attracts timid persons who are unsure of themselves and need weapons and other external trappings of authority.

At any rate teachers are short on guts. And, as Judy Emerson has eloquently pointed out, the classroom offers an artificial and protected environment in which they can practice their will to power. Your neighbors may drive a better car; gas station attendants may intimidate you; your wife may dominate you; but in the classroom, by God, students do what you say—or else. The grade is a hell of a weapon. It may not rest on your hip, potent and rigid as a cop's gun, but in the long run it's more powerful. At your personal whim—any time you choose—you can keep 35 students up for nights and have the pleasure of seeing them walk into the classroom pasty-faced and red-eyed, carrying a sheaf of typed written pages, with italicized Orange Blossom and margins set at 15 and 91.

The general timidity which causes teachers to make niggers of their students usually includes a more specific fear—fear of the students themselves. After all, students are different, just like black people. You stand exposed in front of them, knowing that their interests, their values and their language are different from yours. To make matters worse, you may suspect that you yourself are not the most engaging of persons. What then can you protect from your out of the fold. And they do. Rebel students and renegade faculty members get smothered or shot down with devastating accuracy. In high school, it's usually the student who gets it; in college, it's more often the teacher.

A real interest in children, patience, and one hundred percent of your time are the only requirements. Call the Voluntary Bureau of the Community Service Center and find out just where you can help.

National Scene

If President Nixon has his way the country is in for big changes. Planned spending of a record $229 billion dollars by Washington—including a deficit of 11.6 billion—is being counted on to stimulate business. The favorable turn now under way in the economy is to be encouraged.

So students are sissies. It is time to find out why, and to do this, we have to take a long look at professors. We have to consider the classroom and taken as a group, their most striking characteristic is timidity. They've short on guts.

Just look at their working conditions. At a time when even migrant workers have begun to fight and win, college professors are still afraid to make more that the status quo to the welfare of their pitiful economic status.

Professors were no different when I was an undergraduate at UC during the McCarthy era; it was like a cattle stampede as they rushed to cop out. And in more recent years, I found that my being arrested in a sit-in brought from my colleagues not so much approval or condemnation as open-mouthed astonishment. "You could lose your job.'

The Student As 'Corrupted Form Of Speech'

If you want to know what's going on in the world, you have to go to the classroom. You could raze one set of walls and let life come blowing into the classroom. You could raze another set of walls and let education flow out and flood the streets. They could turn the classroom into where it's at—a 'field of action' as Peter Marin describes it. And, believe it or not, they could study eagerly and learn prodigiously for the best of all possible reasons— their own reasons.

Now, of course, there's the Vietnamese war. It gets some opposition from a few teachers. Some support it. But a vast number of professors who know perfectly well what's happening, are opposing it again. And in the high schools, you can forget it. Stills reign.

It could be that academic training itself forces a split between thought and action. It might also be that the trained security of a teaching job attracts timid persons who are unsure of themselves and need weapons and other external trappings of authority.

At any rate teachers are short on guts. And, as Judy Emerson has eloquently pointed out, the classroom offers an artificial and protected environment in which they can practice their will to power. Your neighbors may drive a better car; gas station attendants may intimidate you; your wife may dominate you; but in the classroom, by God, students do what you say—or else. Latest Varsity News

Marian College made a great rebound as it pushed Ed Schilling off the boards for its new varsity basketball coach.

Schilling, 27 years old, was a record-setting basketball player for Tony Hinkle at Butler University. His appointment, effective September 1, 1971, was announced jointly today by Marian President D.J. Guanzetta and Athletic Director, Glenn Reynolds.

Reynolds, who returns as varsity basketball coach after eight seasons at Marian and 35 years of Indiana coaching, said, "Being a Butler man myself and having played for Tony Hinkle, and knowing Schilling was one of his big boys, Marian College is fortunate and happy to have secured a man of his ability.

Since graduating from Butler in June of 1967, Schilling has been on a fast pace of advancement in teaching. He has moved from a part-time physical education teacher at St. Joan of Arc grade school to Dean of Boys at Carmel High School.

In between time he was assistant principal, director of guidance, director of special education and freshman basketball coach at the Sheridan, Indiana elementary and secondary schools, and previously coached football, basketball and track at Thornstown.

The 6-5, 235-pound Schilling was captain of the Butler Bulldogs his senior year, and was leading scorer and rebounder both his junior and senior years.

He was a member of the All-Indiana Collegiate Conference teams two years, the Indiana College All-Star Team and also played with the National Amateur Basketball League for which he was leading scorer and rebounder two consecutive years.

Twice he was runner-up for Most Valuable Player in the NABL.

A member of several collegiate honorary societies and Sigma Chi social fraternity, Schilling also has a Master's degree in guidance and physical education, and is completing work for a master's degree as an educational specialist in guidance.

Knight Statistics

After twenty games of hard playing basketball, the following Knights are the statistic leaders. For Field Goal % the sharp eye of Bill Smith is leading with a .557%, while from the charity line it is the cool handed Joe Greenwell leading with a 793%.

Randy Stabler is on top for total points and game average, that is 395 total points, and 19.8 per game. On the other hand it is Big Joe Wade pulling down 6.8 rebounds per game, 130 this year, and for assist it is Mike Riser who is leading the team with 53 for the season so far.

The above statistics show that the ability of the Knights is better than their 8-12 record. Also the statistics show that the team is not dominated by a single outstanding player, but rather consists of several individuals with a lot of desire, which makes a well rounded team.

Intramural Activity

Last Sunday's action saw some fine games. The first game saw the Below Me's beat the Dunks' Dal Doze 38-18. Tim Ellinger and Mike Pacheco combined for 20 pts. to lead the victors. In the second game we saw the Intramural Basketball Team led by Les Hubbard with 10 pts. beat the Strobel by the score of 45-34. Strobel was led by Melvin Wilhelm with 12 pts.

The third game pitted the perennial powers, the White Lightning and the 8-Pack (Dubois). The White Lightning was victorious by the score of 42-33. It was a real laugher. In the fourth game Glenn's Peons slipped by the 8-Pack (Foxen) by 3 pts. 51-48. Later action saw The Courtley Few led by Kerckgeasser and Linkemeyer hit the Spoilers 54-44, despite 20 pts. by the Spoilers' Dan Hayden.

Then the Gods of Hellfire rolled over the Birds of a Feather 60-31 on a 19 pt. effort by Roy Devaney. The next campaign saw the Bruins, led by John, Yangneat beat the Good, the Bad, and the Not-so-good by the slim margin of 37-34. The final game of the evening saw the Jwan-Trjawauri beat the Funky B-Ball team 54-43. The Victors were led by the 26 pts. of Michael Benson.

Standings:

League 1
Jwan-Trjawauri 6-0
Intramural Basketball 6-1
Funky B-Ball Team 4-2
Strobel 4-2
Si City Disciples 3-3
White Lightning 1-4
8-Pack Dubois 1-3
Below Me 1-3
Dunks' Dal Doze 1-6

League 2
The Courtley Few 7-0
Gods of Hellfire 5-1
The Spoilers 4-2
Birds of a Feather 3-3
Briu's 3-3
Good Bad, Not-so-good 1-5
Virtuous Vices 1-5
8-Pack Foxen 1-5

Student Billing Service makes sense!

There's no reason why you shouldn't enjoy the convenience of making long distance calls from your dorm room phone and receiving a monthly bill for your calls... and yours only!

That service is available right here, right now. Dorm residents may pick up their Student Billing Cards at the Indiana Bell Business Office. Talk it up.
