The Carbon
Marian College
3200 Cold Springs Road
Indianapolis, Indiana 46222

To the editors of the Carbon:

We had the misfortune of reading the Carbon issued on October 30th and find it impossible to ignore such an ill-edited paper. Marian college was always something special to its alumni—better and above most schools in its traditions and activities. From this paper one would think it has degenerated to rock bottom. I am sure this is not true, but how can a whole student body let some radical misfits speak for them and against them. Anyone who is unsatisfied and does not find a place for themselves at Marian should go elsewhere and leave Marian to those who have higher ideals and who want to pursue an education.

Those who write this paper are using language unfit for any publication—and we do not consider ourselves prudes in any way. Lack of respect for authority is something else which cannot be overlooked. The teacher referred to in this issue of the Carbon was one of the finest, most-understanding members of the faculty in 1954-1958. Today she is being pushed beyond a point no one cares to admit. Why???

Do you all have to have your own way—we didn’t. We are mighty thankful today someone did not give into our every whim twelve years ago. Without rules and regulations the fun of life disappears. We all have to have some restrictions, including Marian College students.

Let’s see Marian College rise above these crises and set an example for other schools. Until this happens we will no longer back an institution without positive goals.

Respectfully,

Mary Ann and Tom Sanders (1958)

Editors’ Note: This letter stands by itself—it’s truly front page material. No comment is necessary—only, that you read it twice, it’s too good to miss any of it.

D.S.
SPORTS

Last Sunday the Gods of Hellfire ran, passed and played their way to the Marian College Intramural Football crown with a 25-7 victory over the Wild Bunch.

A pass interference call set up the first touchdown as Mike Govert found daylight in the Wild Bunch line and ran 11 yds. to pay dirt. On the following kickoff, it appeared that the Bunch had their back to the wall when the receiver was tagged on the two yard line. But Ken Tyrrell calmly stepped back into his end zone, found Terry Smith open on the six behind a wall of blockers and hit him right in the hands. From that point on the play had touchdown written all over it as Smith simply outran the last God defender, Terry Wiseman, to the goal line. After several exchanges of play featuring tremendous defense the Gods scored again on an eight yard pass from Govert to Herbe. At half time the score read Gods 12 - Wild Bunch 7.

In the second half the Gods put all their stuff together enabling them to tally two more scores. Govert passed 35 yards to Unser for one TD and crossed the goal line from about one inch out on a quarterback sneak for the other.

If any one thing hurt the Bunch, it was the lack of an effective pass rush. Time after time Govert was able to drop back and simply wait till one of his receivers broke into the clear. Dale Hallegarn who hurt early in the game and thus much less pressure was exerted on Govert. The Gods, on the other hand, successfully kept the Bunch off-balance most of the game and when the Bunch finally did move late in the second half, Larry Unser came up with a timely interception.

So one more season of Intramural football season is completed at MC. The cleats are hung up for one more year, but at least one team is already looking forward to next year. Now that football season is over and colder weather is here, the M.C. men's fancies turn to the roundball and Sunday afternoons. Intramural Basketball is here. Sunday afternoon initiates the first week of 8-ball action. Eighteen new teams have turned in so there should be quantity if not quality this year. Last year's champ, Juan-Tu-Jwari, is back but without their best player, Bill Smith. Smith is playing varsity ball for Cleon this year. Sad to say for the rest of the teams in the league, the Gods of Hellfire have formed a team this year. With some former members of the varsity team like Roy Devaney and John Bovard they should be plenty tough.

This Sunday we should get some inkling of who will be the teams to beat in the two divisions.

Dave Albano

COMMUNITY CAREER OPPORTUNITY CONFERENCES

If you are graduating soon and will be needing a job, or if you will be looking for part-time or summer employment, the Community Career Opportunity Conferences, to held during the 1970 Christmas Holidays, could be of service to you. These conferences are designed to enable college students-particularly seniors and graduate students-to explore the many types of careers available to them in their own home towns. There is no charge to students for conference registration or interviews with potential employers.

Employers from industry, retailing, banking, utilities, education, government and service enterprises are interested in recruiting college students, especially those who graduated from local high schools and are attending college in other regions. Students from any college or university are welcome.

There is a list of the cities in which these conferences are to be held posted in the MC Student Services Office. For more specific information or to preregister to attend any of the conferences listed, write to the Chamber of Commerce contact in that city.

LETTERS TO THE EDITORS

Dear Editors:

I believe that it's time to place the blame where it belongs. It's not the fault of the students that MARIAN lacks constructive activity and is drowning in apathy; it's the fault of this narrow minded tradition oriented administration whose only attribute is their ability to maintain an outdated carbon copy of an institution of higher education which is a remnant of years gone by.

I think it's time to make some moves and seek justice in this antiquated environment whose instructors threaten students because they express their "negative" opinion about MARIAN, whose administration refuses to join the trend of the day and institute a Black Literature department in the library. Is there any doubt that in a "community" such as MARIAN atrocities like probation for those participating in a panty raid or attempts by the upper office in the administration to eliminate the Operation Upbeat Program should not exist. It's no secret that D.J. and Company spend more time in coercion of students (from STUDENT BOARD down to the Individual) rather than taking time out to take an interest in them.

This place will blow up in the near future. I'm sure of it, and when it does that D.J. will give us all superficial reasons why it happened, but we, you and I, will know the truth.

Richard Geitcher

Dear Editors:

This article is directed to those students who don't even care enough or know enough to read this CARBON. This is written with the hope that they will pick up today's. Most of these people think that the CARBON is run by a bunch of radicals who are just trying to tear down society. Well you people had better wake up because you are going to be coming across all the rest of your life. And you'd better listen to the things they have to say.
