THE WEEK

Fri. Dec. 13
- Basketball Purdue of Calumet There
- Open House (7:30-1:30) Clare Hall

Sat. Dec. 14
- Christmas Party (8 pm) Doyle Hall

Sun. Dec. 15
- Faculty Christmas Dinner (6 pm) Allison
- The pre-finals mass suicide scheduled for today was cancelled due to lack of participation (this student apathy must end)

Mon. Dec. 16
- Final Exams
- Inspirational procession of plastic Santas

Tues. Dec. 17
- Final Exams
- Jimmy Dipping at Allison (9pm-5am)

Wed. Dec. 18
- Final Exams
- The Marlboro Man will ride across the golf course (no admission)

Thurs. Dec. 19
- Final Exams
- Traditional burning of seeds and stems in room 313

Merry Christmas from the Carbon Staff
FROM THE MASSES

Twas the night before Christmas
And all through the dorm
Not a party was heard, it was time to reform.
Such an action, the RA's would never condone.

The girls from Clare Hall were shut up in jail
There seemed no hope for a nice piece of tail.
Then out in the hall
There arose a great cry
I feared Dean Woodman was petrolling outside.

Away to the door
I made a quick pass
I tripped over a bottle
And fell on my ass.

When I opened the door
What should appear
But a Jewish BD with my two cases of Beer.
"If these are yours" he yelled to us all
"Go to the Dean or I'll cut off your

And I heard him exclaim
As we marched to the Dean
"The pressure is from above
So don’t blame me."

John Klement presents:
"Sie Disappointments for the Year"

1- apathy
2- "The Mutiny"
3- Stoned Rangers
4- Short existence of snow
5- Dr. Sharp's departure
6- Professors who can justify the use of "stupidar" but cannot understand the meaning of "scope"
7- Boyle Hall crackdown (Student Rights?)
8- Shower curtains and shower heads
9- Variety Show
10- Pres. Ford (WIN?) reminds me of "peace with honor"
11- 50 No Shows-(Admissions?)
12- Commercialized Christmas
13- Art 215 (arts & crafts)
14- Dave Friesen (sometimes)
15- Everybody (sometimes)
16- The loss of "Shanen" (1st Doyle Hall Eviction in the history of Marian College)
17- Leynors' blind date
18- TGIF, Mad Dog
19- Beer Blast destruction

(Continued next column)

FROM THE MASSES CON'T

"Gratification for the year"

1- Medea & Dark of the Moon
2- Poplar Buff, Missouri
3- Ken Elmandorf, advisor
4- Carbon & Staff & David Manning
5- Jesus' Birthday (to be)
6- Student Board & members
7- Caves TN Caverns
8- People in general (sometimes)
9- The administration—fine crew (sometimes)
10- Homecoming Dance
11- CET & DM
12- Stoned Rangers
13- Vacations in general
14- "Doyles meets Dean" night in the lobby
15- The Ewrd

*******************************

To the Student Body via Carbon.

Perhaps the most monumental strides in Student-Administration relations was actualized this past Thursday at Doyle Hall. This movement included Dean Woodman, Ken Elmandorf, Dennis Leynor, John Klumen (MSCA Pres) myself and approximately twenty, truly concerned students.

During the course of this informal gathering, many pertinent questions as to policy and rights of students were discussed, and many excellent points were given in support of both groups. I believe that, for the whole, in many students minds now, they know exactly where we stand. It is also evident now, that the administrators have a very clear picture of what, at least the male, students want and need.

Dean Woodman is to be thanked as well as the students involved for a very pertinent, informative gathering. At the same time, I would like to express the sympathy toward student problems that the Dean has. If more people would attempt to acquaint themselves with the Dean, I believe they would have the same picture.

Now, I realize many will say, "So, he's sympathetic, but he really doesn't care."

and to that I say, "Fullshit." If more students expressed their desires to him, if he felt that the majority wanted (demanded) change, then this is the only thing he could report to his superiors. Thus, I feel, is a practical way to obtain change. Another is Student Board. They have the power to lobby or petition for change. If you have ideas or suggestions, find out the best place to take them. In numbers there is the power to change a policy. Talk on the behalf of individuals is cheap.

Students, if you truly feel you have a cause, unite and take it to the right channel. There are, contrary to popular belief, people who seriously listen to all gripes and all situations.

Respectfully and
Thanks to Dean Woodman,
Edward Klumen Jr.

Question of the Week

Deb Mackel asked "When is something going to be done about all the fire trucks on campus?"

Keep on asking these questions, Deb, and they'll throw you out of school.
The Fall Semester Student Attitude Survey

The fall semester student attitude survey was administered on November 19. I would like to take this opportunity to tell you about the results and to give you some background about the survey itself.

The question can (and has) be asked, "why bother with a survey." Well the reason’s for a survey include:

1) It gives a chance to improve communications between the students (thanks you) and the food service (I think thats me).
2) To give me some statistical information about student concerns in our area.
3) To provide me a warning system, that will point out small problem areas before they get too big to handle.

The first Saga Student Attitude Survey was taken at Marian College in 1968. Since that time, it has developed into a formal survey that is taken at every Saga Educational Division account, every semester. Other surveys that have branched out from this are the Administrator Attitude Survey and the Snack Bar Survey.

Comments on the survey and made to me by the people filling out the survey indicated that this was mainly a problem of the white film left by hard water. We have a water softener and are going to try to keep it running smoothly to keep soft water. The other major problem is with peanut butter on spoons and knifes. That problem will be solved with the dish washers and they will be on the closer watch for it.

Tomato soup of food: We will work with the line servers on this. It will be necessary to keep padihning to a minimum. Pre-disheled foods will only be up during periods when a considerable number of people are coming through. If that doesn’t solve the problem we will have to go to dishing to order. It will slow down the line but at least your food will be warm.

The survey's format is shown in the table above. A number of these items are marked as above average, average, or below average. If I fall below this rating I must provide an action plan on how to deal with the problem in order to bring it up to standards to meet your satisfaction.

One specific rating this semester was:

- Variety of Food: 98.4%
- Cleanliness of Dishes and Silver: 100%
- Cleanliness of Tables: 100%
- Quality of Food: 96.8%
- Quality of Service: 98.4%
- Overall Food Service: 100% (Thank You)

Again thank you very much for this which is my best survey ever. I will continue to work to improve our food service. As far as the two problem areas I have marked above, I am going to effect the following action:

1. Cleanliness of dishes and silverware: Comments on the survey and made to me by the people filling out the survey indicated that this was mainly a problem of the white film left by hard water. We have a water softener and are going to try to keep it running smoothly to keep soft water. The other major problem is with peanut butter on spoons and knives. That problem will be solved with the dish washers and they will be on the closer watch for it.

Dear Carbon,

Last year, Dr. William Woodman became Dean of Student Services at Marian College. When he first arrived, the students were suspicious of him because of the Dean who preceded him. (That poor man was ridiculed and nestered till the day he left) No one heard much from him last year. Many like any new administrator, he needed some time to get acquainted with students and his new staff. He probably spent his time familiarizing himself with the policies of Marian and planning for the future. Unfortunately, his changes would have to wait because any new person needs time to get settled.

This fall, Dean Woodman finally presented his much-awaited reforms. He presented a new Judicial System to Faculty Council which was immediately jumped on by Student Board. He also instituted a much-needed crackdown on those derelicts in Doyle Hall. His most vocal opposition came from the residents of Doyle. They argued that he had no right to infringe upon their privacy. Everyone else knew he does have the right because it says so in the housing contract. (Can't those guys read?)

This next Tuesday, our Dean met with the so-called "men" of Doyle Hall. From what I have been told of the meeting, Dean Woodman answered their questions with honesty, straightforwardness and common sense. My opinion has been reinforced that Dean Woodman is dedicated to all students.

Dave C. Shuss

That Crew! By: Bob Bitchin'

I was practically begged to write this article, but it's not going to be a gripe, just because that's what this person wanted it to be. Instead, it's congratulations to Maintenance. In four years, I have never seen Doyle Hall in (better?) cleaner shape. The present maintenance crew is the best yet and their Director, Ron Scholl is a "good, concerned man with big hopes and big dreams to please." (Is that the order you wanted me to put that in, Ron???)

Yours until the end,
*****

Bob

Sports Shorts

Men's Sports

The second week of I.M. basketball saw plenty of action and history in the making.

In the first game, The Ladies Choice, led by Bob Nott and Scott Vonderhides 24 points, blitzed the Sisters 64-39, Joe Rea popped in 22 for the Sisters. The second game Fordage down the Ford 57 to 36 as Joe Putz hit 16 and Wally Liebel and Doug Lamkin rallied off the bench. Next, the Marbles squeezed by the Paro 50-49 in a well played ball game. Big John Folkth scored 22 and Fran 10 for the Marbles as Jeff Zilzron ripped the nets for 20 big ones for the Paro. History was made. Yes, sports fans, the first recorded forfeit in I.M. basketball as White Lightning couldn't get enough players out of bed. Mazuri was the walk away winners. Then the Mother Trucker Revival bombed the UFO's (Con't next Column)

SPORTS SHORTS

67-35. Meadowlark Kurtz hit 18 for the Truckons and was supported by Rickleys 14 and Errol Toney-13. Keith Childers had 27 for UFO. The evenly matched Mean Machine took the floor against the Vikings and what a game it was. With the Machine the victors, 63-54 in the end. They were lead by Becker's 25 and Keller's 16 as Jerry Danz scored 24 for the losers. The last Sunday game saw the unsurpassed take on the blood thirsty Aspyths. Aspyths, as Aspyths, finally looked like a team and snatched 47-29. Jim Reintstaller was the Asphy star as he hit 13 points and grabbed 13 rebounds. Rick Martin added 6 assists.

Wednesday saw the Mean Machine run away from Walls Fargo 52-36. Becker once again led this way with 21, while Shelder added 10. Wells hit 12 for Fargo. Next Aspyth finally pulled away from the Paro in the closing minutes, to win 48-43. Greg Shires was high man for Aspyth with 16 and Rick Martin added 13 plus 6 more assists. Dan "Boone" hit 14 for the losers.

The Sisters came out fighting in the next contest, but fell to the Truckons-61-35. Gary Jannigen and Errol Toney each hit a dozen while J.J.Kilps scored 10 for the victors. Dave Record popped 18 and Joe Rea 13 for the Sisters. In the final game of the evening, White Lightning put up its best performance ever, but lost to HST-47-30. "Hot Dog" Tom Sluss hit 15 points and Bill Platt connected for 12 for Lightning while Mills hit 12 and Grey 10 for HST.

Later----Wallow

STUDENT BOARD REPORT

The Student Board met at 7:15, Sunday, December 8. The meeting was called to order by President John Elsen. The Representative reports were then presented: Doyle Hall-910 was allocated from the dorm duty to each floor for Christmas decorations. A $6 gift certificate will be given to Doyle Hall residents with the best decorated room, and a steak dinner will be awarded to the members of the best decorated hallway.

Student Services- The committee will revise fire evacuation procedures in Marian Hall, and also discuss inadequate fire alarm systems in Clare Hall and try to possibly alleviate these problems.

New Business

Brent Elaine moved to amend section 3 of the proposal currently before the Board of Trustees concerning student representation on that body. The motion was seconded and discussion ensued. After the discussion, a vote was called, and the amendment passed. The proposal now calls for a participating non-voting member on the Board. The Board discussed possible violations of student rights which have occurred recently. An Ad-Hoc committee has been formed to investigate this matter. The committee will present a progress report at this Sunday's meeting.

Brent moved that the Board adjourn. The motion was seconded, and everybody split.

FREE PRESS

Where were you when the lights went out? Just a word about energy conservation, water, food, etc:
1. Turn off lights, T.V. + other electrical appliances when you leave your rooms.
2. The garbage disposal is on a diet. Don't feed it so much.
3. Does the bathtub need to be running over with water?
4. Bring all your old newspapers to the dark room on the 1st floor across from the Biology Lab. The Biology Conservation Club wants them for recycling.

Senior Life Saving Course to be offered at night next semester. Please contact Mike Emming Ext. 310 or Carol Lukacsek Ext. 430
