St. Jude Dance Marathon Report

Plans for the dance marathon are in full swing with donations beginning to come in from businesses and individuals. We are also receiving support from various area high schools. McDonald's, Dairy Queen, and Dunkin' Donuts have consented to donate food for the dancers.

What is needed now is people to dance in the marathon from the Marian Community. All students and faculty members are welcome to join in this worthwhile cause.

We could also use some extra help in the office, which is located in the SAC Building. With the departure of the Drum and Bugle Corps for Florida next week, we'll be short-handed.

Kits are being assembled now for prospective dancers to use in acquiring sponsors. We deeply appreciate the help and support which we have received thus far, and hope that the response will continue to grow as the marathon approaches. Please feel free to contact us at ext. 576 from 9 a.m. to 5 p.m., or drop in when you are in the area.

Thank you very much.

In past Carbon publications, the question of the Administration's practice of accepting separate score levels for the older students (at the 25th percentile) and for college-age students (at the 50th percentile) has been discussed. As student reps on the Academic Affairs Committee, we had questioned this practice. Nothing has been answered as of yet, but discussion will continue during next Tuesday's meeting.

Therefore, we would like your opinion and questions about CLEP acceptance at Marian. The following suggestions and questions have been proposed:

1) Removal of any acceptance for accreditation of the 5 general exams, thereby removing the question of acceptance levels.
2) If the exams are kept - what should the percentile be for older and college-age students? Should it be less?
3) Certain CLEP subject tests will be approved by the respective departments (ex. Anatomy by Natural Sciences) and will be applied toward a particular class. A list of the accepted tests will become a permanent page in the College catalog.

If you have any opinion on these questions or proposals, or if you have any suggestions, please contact one of us.

Student Board Minutes

A Student Board meeting was held Wednesday, March 17th at 9:30.

Committee Reports

Social Planning: The last meeting was held tonight. Senior Class: Work has started on the Senior party.

Old Business

Vice-President: minutes were presented and passed from the Board of Trustees.

Guest Hours: The Proposal was passed by the College Council. Now it goes before the Board of Trustees April 15th.

Publications Guidelines: The Guidelines were discussed at the College Council meeting and they were sent back to be worked on.

Junior Class: Stan Krekeler moved that the $250 money...
It's unfortunate that the majority of people leaving the championship game weren't talking about the two teams that played, rather how the two referees didn't ref. But you would suspect that kind of result having two freshman ref an important game such as that one was.

Keeping in tradition with the two previous meetings All the Young Dudes and All the Marbles did a head-on battle all the way down to the wire. This time the Marbles were winners in a 44-44 overtime thriller. This gave them two consecutive IM crowns and 31 straight without a defeat.

> For the Dudes it wasn't that easy. On Saturday, they had a rematch with Wazuri, the only other team to beat them during the season. This time revenge was sweet in a 54-37 victory. Led by the brothers Deaton with 15 apiece and Shires 10, the Dudes pulled away in the second half. Wazuri was led by Vic's 15 and Irv's. Next, I ETA THI heat off a Htt scare to win 51-46. Boone hit 21, Cochran 16 and Zidron 11 for the winners. Scotty canned 14 and Barrett 8 for Pit.

On Sunday, the Dudes battled Omars Tent Makers, who drew a bye on Sat. In another rough game, the Dudes didn't pull it out until late for there 48-40 win. Kent again was high man with 12 as Shires added 10 and Greg P. Poore was top man for Omars with 15 as Ronnie added 12. The other semi-final game saw the Marbles down a tired I ETA THI team 61-37. A close first half was blown wide open on a couple mistakes by the thigh eaters. Keith was tops for the Marbles with 21 as Heim hit 9 and Kalberer 8. Boone canned 18 and Joe 8 for the losers.

This set the stage for Wednesday championship game between the Dudes and the Marbles.

Both teams looked ready and willing during warm-ups, but unfortunately, the game had to start. This is where officials Tom Philpott and Kevin Smith left lots to be desired.

The 1st half saw the Dudes control the tempo of the game until late in the period. There Kent Deaton was slapped with his third foul and the last 2½ minutes were played under the Marbles basket. Halftime score: Dudes 17 - Marbles 14.

With the second half tip-off, Keith drove the baseline only to draw Kent's fourth foul. With one big man out the Marbles made a daring dash for the line. Pulling away by three with two minutes left it looked hopeless for the Dudes. Kent had fouled out and the offense wasn't working. But a key steal and two quick buckets and suddenly the Dudes found themselves on top 42-39, with 17 ticks left. Now think: your down 3, just seconds left, what do you do? Get the ball, of course. Shires got the inbound pass, was fouled immediately, and it looked like heaven for the Dudes. But here again the inconsistency of the refs showed. A jump ball was called. Keith got the tip, fired a three pointer and overtime.

In the super fast two minute overtime the Marbles outscored the Dudes 4-2 to register their 16th straight win of the season. But what of the officiating? It truly was poor. What if Commissioner Schrot got couldn't two non-student refs? I believe it would have made a difference. Students shouldn't ref students in the play-offs; they get to intimidated. Its over now but I feel a mistake was made, and I'm embarrassed for those involved for looking real bush league Wednesday night.

A championship game where one team shot 14 free throws the other 6, and one team's center fouled out and the others collected no fouls? Strange!

**LOST!!!**

One car plugg driver, who parked behind Marian Hall between the Science Wing and the Auditorium, facing the Science Wing Tuesday night. Yes, this kind person whom I parked by blue Monza 2+2 next to, at around 7:10 p.m. left me a nice $111.46 present that I would like him or her to gaze upon.

Please, will the person responsible for my new front end alignment be man or woman enough to admit his or her mistake and leave a not on my car of call me at 241-4675 evenings.

Thanks-

Mellow
Has anyone else noticed the lack of information relayed to students from the administration? This becomes more and more evident to me as I progress (or at least exist) at Marian College. Ideally, keeping these channels open would be of the utmost importance since education of the student is the primary goal of this institution.

Two examples which come to mind off hand are the self-study made by the college and the standing committee of Student Affairs, which acts as a liaison between the students and the Board of Trustees. Now there may be those few omniscient students who were aware of these two but I feel safe in saying these matters have never been topics of discussion in our stimulating (but appetite inhibiting) cafeteria. So, to give us something to talk about I’ll tell you what I’ve recently learned about the matters. The guest hours committee became acquainted with the self-study while digging for something to support the proposal. A few of the well informed committee members had heard of the self-study, I must admit but I don’t feel it was made common knowledge to the student body. This study was issued by the government to the school to determine whether classes, teaching methods, procedures, and the college as a whole were operating to full potential. I believe results of this study should have been furnished for and explained to the student body since it obviously included them and was ultimately done for their benefit. This could and should have been a very healthy undertaking for the school since continual evaluation is always necessary for progress and growth. It seems this study ended up being another report for the file cabinet! Why??

The second example I cited was the Student Affairs Committee which is supposed to present student’s proposals etc. to the Board of Trustees. When Student Board last took a guest hours proposal to the ‘Board’ they were informed (for some reason after the fact) that there was such a committee which would act as a liaison to present their views. So now we know. But, couldn’t there have been better communications between the two parties? Since this committee consists of members of the Board of Trustees it could only help the students to hash over a particular proposal with these people first since they are familiar with the ways and means of their constituents.

I don’t really know if the administration has intentionally kept this information (they could try executive privilege I suppose although I’ve heard that’s not foolproof) or if there has just not been someone willing to take the time and effort to make such things known.

I believe these matters are of importance to the student and in the long run would be beneficial to all areas of Marian College.

To the masses, continued
