FRIDAY NITE
9:00
To the Masses:

"In sports and in life, the difference between "great" achievement and "good" achievement is often said to be about two per-cent more study, practice, application, interest, attention and effort. Two per-cent more makes the difference. The slight edge belongs to those who would pay that small price. . . . consistently."

Tomorrow (Saturday, October 3) at 10:00 a.m. the Women's Varsity Volleyball Team of Marian College will attempt to give that extra two per-cent! Last Saturday, we did "good" but Taylor University had the edge over us. This Saturday we intend to give 110 per-cent! We've been working hard . . . our COACH has been working hard. Taylor is our guest this time, so we have a second chance. Who will have the slight edge tomorrow?? Come and see for yourself in the Clare Hall gymnasium. Sometimes the distance from the bottom to the top is shorter than we realize.

Coach: Miss Clara Caito

--------------------

WOMEN'S SPORTS

The kickball game last night concluded the first season of women's kickball here at Marian and quite a successful season at that. Miller's Highlights are the now reigning "kickball champs" by defeating RAPID Turtles 15 - 6. The game started out very close and was 5 - 3 in favor of Highlights after 4 innings. Then in the next 2 frames, Miller's kicked around and scored 6 runs in each inning. Their big asset was the darkness as once again the sun set before the game ended, and of course they have all their games in the dark this year and were used to it. Then RAPID also had to recruit players who hadn't played before. A successful season at that. Miller's Highlights are the second game never got started as the Dirty Dozen didn't show up and forfeited to the Maniacs. The final standings are below. Thanks to all those who participated in any way to help make the season a success. Get those volleyball rosters turned in today and of course they have played all their games in the Clare Hall gymnasium. Sometimes the distance from the bottom to the top is shorter than we realize.

Ode to a Toke

Moke is joy
A taste you can savor!
Taka a hit
Enjoy the flavor!
Flick the ashes
Hold you toke

Kill your lungs
It's all a joke
Buy an ounce
You will save
Space your ass off
Till your grave.

Stoney Jr.

--------------------

Untitled

I sit attempting to write words
and give a rational analysis of the way
I feel,
Sometimes it isn't easy
To hold a pen and be objective
While you're sweating blood

Agony, coming and staying
Like the fog of yesterday morning
Small pieces of my soul
Being ripped and torn to tiny shreds

At least the vultures are satisfied
Their guts full
As my death cries trail off
Into yesterday (when I was young)

The Exodus

Why have they gone? Some unaccountable but nonetheless deadly, force seems to be driving them away. This fact could be attributed to any institution of higher learning, but if the present pattern continues in our particular community extinction may be inevitable.

The statistics concerning withdrawal can no longer be accepted. If such a pattern was occurring in a business, a team of researchers would immediately be brought to the scene to locate the problem and set up positive adjustments in the system.

This topic has been discussed by the Student Services Committee and we promise something will be done. How can we lose with Dr. Appelby and Dean Woodman working tête-a-tête? The dwindling enrollment is a serious subject and will determine the future of Marian College. Much work will be involved in this endeavor and we need your response. Of course change takes time but there is no reason why Marian College should dwindle to nothingness. The college does have potential. Something attracted us to begin with. Now we have to determine exactly how, when, and why this attractiveness wore off. Please be free with your comments. Committee members are: Col. Pille, Pat Price, Cheryl Daily, Bob Melevin, Mary Clare, Dr. Appelby, Dean Woodman, and Sr. Stella.

Bell Boy Problem

3 men went into a hotel to get a room. The manager said the room was $35 so each gave the manager $10 and the manager said he'd give the change to the bell boy and have him bring it up. The manager gave the bell boy 5 one dollar bills and told him to split it between the 3 men. So the bell boy kept 2 dollars for a tip and gave each man a dollar. Since he gave each man $1 change, each man paid $9 for the room. The total was $27. $27 plus $2 for the tip equal $29. Where is the other $1? ? ? ? ? ? ? ? ? ? ? ? ? ? ?
