DEAR STUDENTS OF MARIAN COLLEGE:

In the past month, many students, faculty, and administration members have approached Sue and me to tell us what a "good job" we were doing on the CARBON.

You may recall in our first editorial, CARBON co-editors set down six goals or purposes to the CARBON. Let us reiterate:

"The purposes of the CARBON as we see it is: (1) to provide a calendar of upcoming events; (2) to relay social/educational/intramural athletic information; (3) to display appropriate artwork; (4) to depict humorous observations of M.C. life in the form of CARBON Applauds and hisses; (5) to express opinions of community members on local, state, national, and world current events; AND MOST IMPORTANT (6) to publish the opinions of students, faculty, and administration concerning the M.C. community including constructive criticisms as well as letters of approval and/or praise."

Now—Let Us Compare! We HAVE been providing a calendar of upcoming M.C. events as well as appropriate artwork with every issue. Well—that's (1) and (2)!! As to social/educational/intramural athletic information, What you see is what we get! While some organizations have been consistent in their contributions, others, despite our urgings (pleadings), obviously have decided that they are not worth knowing about. For instance; Where is the sophomore class and what are they up to? Also, CARBON APPLAUDS and hisses (4) have swamped our office while there's been a nice pick-up on the idea of Carbon Confidentials. We're GLAD!!

So far, you say, it sounds like we're a healthy CARBON.

You couldn't be farther from the truth!!—

Any paper can have a "skelleton" of events and information. And it is not too difficult to come up with funny one-liners and trivial tidbits that "fill out" or fatten a paper! Any editor can take the above and crank it out once a week.

What I am concerned about is the "meat" of the CARBON! A few, and I do mean a few, students have expressed opinions by writing to the CARBON. BUT, I want communication by the students to the students-on life (be it M.C., local, national life or the morals and ethics of life) to constitute the "CHARACTER" of the CARBON!

The one-hundred eleven (111) Applauds and hisses/ fourteen (14) Carbon Confidentials which deluged our office this past week are no reflection of the "intellect" of Marian College—I HOPE!!!! It is very discouraging to hear from fellow students that they "have nothing to say." Sue and I have an entire list of topics we would like to constitute the "CHARACTER" of the CARBON!

But frankly, WHY DON'T THEY WRITE IT THEMSELVES???? After all, it is their paper as well as ours. Furthermore, the CARBON is supposed to be providing a route for Marian College expression, not only that of two individuals. Sue and I do not cumulatively contain the ideas of the entire campus. We do not know what you have to say unless you tell us and the "inside jokes" of the APPLAUDS and hisses are not enough !!!!!!!!!!

DEAR MAINTENANCE:

Just a small thank you for the great job you did on cleaning and repairing the showers on the third floor in Clare Hall. We greatly appreciate your efforts. Keep up the good work! This place is starting to look and feel more like home!

Thanks Again

BEER BLAST IS COMING!!!! Friday, Oct.7th, 8-12 pm at HOLY TRINITY: $3.00 for all the DRINKING and DANCING you can take. Maps in next issue. Supported by National Drinker's Union, Marian College—Local Chapter No. 69,243,291.

CARBON Editors received your letter but we did notice that you did not sign it. While we do not require the PRINTING of the letter's author, we do need to know who is writing in. Our reasoning behind this includes: Sometimes contributions which we would be happy to print are so illegible as to be unreadable and therefore unprintable. Other articles have inherent value but are surrounded in profanity. We would like to be able to get in touch with the author to give him/ her a chance to rewrite before we edit. While neither of these apply to you directly, you still are not exempt from the rules.

We need to know who you are in order to print your letter. Hoping to hear from you again!!!!!!!

Pam and Sue

ATTENTION SENIORS!

There will be a survey taken over the phone next week concerning the colors of the graduation gowns. We were thinking of changing the colors from black to navy blue. Please have a preference when we call. Thank you.

HOMECOMING GONG SHOW

The Junior and Senior classes are sponsoring a Gong show for Homecoming Week. We need to have acts, so if you have anything that resembles talent please contact one of your class officers. If we don't get enough acts, we won't have a show so come out and make a fool of yourself!

Life Insurance Companies. The Student Services Office does not sponsor or endorse any private life insurance agency for the purpose of on campus solicitation of Marian College students. Any life insurance company that attempts to sell life insurance on campus without proper authorization from our office is in violation of College policy, pursuant to the 077-78 Cods of Student Rights and Responsibilities, pg. 52 of the Student Handbook.

Because of problems we have had in the past with aggressive life insurance agents harassing students, and the difficulty of permitting one company to solicit but not others, our office has followed the practice of denying all requests for on campus solicitation. Obviously, insurance representatives who have Marian students as clients may legitimately meet with students on campus as long as they are here at the invitation of the student. Although serious efforts are made to discourage life insurance agents from random solicitation of students, some agents do find their way into the residence halls. If you become the object of unwanted personal or telephone solicitation from insurance companies, please notify the Student Services Office as soon as possible. Make a note of the particular insurance company involved and the name of the insurance agent. Tell the agent that you are filing a complaint with the Dean of Student Services and do not want to be bothered again. With the necessary information from you, our office will take further steps to follow-up with the insurance company.

Room Painting Policy: I have been talking with the maintenance department concerning policies and procedures for the painting of individual student rooms. A new policy should be developed within the next few days and distributed to the residence hall Directors and staff as soon as it has been finalized.

Bill Woodman
Dean of Student Services

The upcoming Homecoming Week should be better than past ones in several ways. The first indicator is the early preparations already underway. The initial plans were discussed last spring with a few changes and additions made this fall. With the advancement of planning, clubs and classes should have better organization and implementation of events charged to their responsibility. There is a good variety of activities promising to be fun and appealing to most everyone. The tentative schedule appeared in the last issue of the Carbon.

A major difference in this year's schedule is the first home game is not the Homecoming game, but it is Wednesday night during Homecoming week. The Homecoming game on Saturday is the second home game and third game of the season. Another change is one location for the dinner/dance of students and alumni. This should prove to be a better arrangement because recent graduates many times do not know which dance to attend, since they know many of the current students and many of the past students. The combined arrangement should help all members of Marian College become better acquainted and help create a "community". Many times alumni are called upon to help students with job leads, do recruiting of new students, support Marian College financially through donations, come back to campus as guest lecturers and for career days, etc. Marian College is its students, past and present.

A third change is having the Variety Show on two nights - Friday and Sunday. This should allow a greater number of people to attend from the outside community as well as from Marian. The same format will be in effect, that is, anyone interested a student(s) is encouraged to "audition" their act. There will also be some production numbers in need of a lot of people. If you want to become involved but don't have something of your own, come over and get involved since we need your talent in these "cast" numbers as dancers, members in comedy skits and the like. Mr. Johnson will direct the show.

In recent years, Booster Club had the responsibility of finding a student(s) to coordinate and direct the Variety Show. This was always difficult and sort of pot luck if any student(s) would accept the responsibility and how much expertise in directing a show they had. It was thought that Mr. Johnson's expertise in putting a show together, plus his polishing an act, and in the technical aspects would produce a more professional show. It will still be an opportunity for a broad spectrum of students and faculty to participate in the show. Hopefully, by utilizing Marian's talent in directing the show, the talents on stage will be even better, and a faculty member in charge may prove to be more permanent and all inclusive. There will be a number of rehearsals several weeks in advance of the date but not all participants will be required to rehearse every night. Since I have heard some concern over the change in this year's Variety Show, Mr. Johnson agreed to come to the next Student Board meeting on Monday night to outline the tentative plans, stage design, scripts for some of the production numbers, etc. The proposed change in the Variety Show should achieve greater audience with the two showings.

Beware the new tan
Ron Juan may know how to get his back rubbed, but hell, my mom rubs my back!
It seems funny that the Doc only has money when he’s around the wife
Wildman’s Riddle: Who was the losing pitcher for the O.Y.S.O.B.’sh!nt—lives in a treehouse!
Is Ron Juan and the little tree majoring in communication?
Is it true that Eileen can kill a fly by looking at it?
The FOX meets the Sheikh-la (in the hay?)
Flip’s fable: Lean Eileen and the little tree
What does it take to get your laundry done?
Does kissey-facring and "ironing" really mix?
Has the key been found?(Ask Jim)
Is it true that there is no age limit to ride in the "Vanned man’s" van?
Is it true that Mickey gave up his whole wheat cereal for "grass" cereal?
Is it true that Dean Woodman broke up the PIT so that the APOSTLES could spread the word and blow the joint?

Well children,
The slightly salacious saga of Jean Brodie is developing well (as are a few of the children). My little ones, you simply CANNOT afford to miss this psychological spectacular spotlighting sex and assassination. Why, it’s even better than Soap! (Have you noticed they don’t have Froot Loops in the cafe?)

I fully expect the entire community to get their physiques down to the Peine Arena on October 7.
It’s free with your I.D., but pay anyway, just for the thrill of it! I’m leaving now. Bette’s waiting in the car (a black and-pink Pacer, if you can believe it, and I can). Tah!

See. Peter (except on Fri. nights)
