The peninsula-reclamation project is moving along at an even pace; anyone and everyone is invited to join in the fun. There is, however, some discussion on the necessity of a small bridge. This need is as plain as day; to illustrate this point we have a parable: One day a certain CARBON Editor was out communing with nature; her course carried her to the peninsula. As she was edging her way across the logs she fell into the pretty green water. As she lay there looking up at the pretty brown mud, a muskrat sitting nearby said, "Amen, Amen I say to you, build a bridge!" With measuring tape and slide rule the CARBON has a bridge design. Any interested Soph or Fresh class president is welcome to it. A.M.H.

SPORTS
Ind. State 300 020 012-8-12-1
Marian 000 000-0-1-4

Last Tuesday afternoon the Knights were rudely introduced to "America's most popular sport—baseball." The invaders from Indiana State shelled the Knight's mound for eight runs and twelve hits, while limiting Marian to no runs and one hit—that by Ron Strange in the last of the ninth. Besides limiting the Knights to one hit, the State pitching staff poured salt into the wounds by striking out seventeen batters.

The baseball team wishes to thank everyone who came to the baseball game and stuck it out in spite of the cold.

Judging from the type of editorials and comments on campus affairs appearing in the Phoenix this year, it seems that something is amiss. Certainly, our staff and editors have some opinions on controversial issues that arise on campus, but they are never aired in the school press, only by word of mouth in the, percolating caucuses. Why doesn't the Phoenix take a stand? Are they afraid to step on someone's toes?

Without organized or at least voiced advocacy, how can the student body, the faculty and the administration know the feelings of the others if this feeling is not presented formally in the official voice of the school, the newspaper? And how can outsiders know the policy of Marian as a Catholic College if they cannot read it in black and white?

Another interesting inquiry consists in the dearth of letters to the editor. Either these letters are not printed or they are not written, the latter, perhaps, because the Phoenix brand of news is old, or entirely factual and does not lend itself to critical thinking.

The Phoenix has ample sport and campus news coverage but seems to be lacking in the type of article which would give it the prestige and character of a policy-holding newspaper.
