An official room check of Doyle Hall over vacation, under the direction of the Student Personnel Office, has bred recent student dissent on campus. The two main points in the question seem to be: 1) Student freedom in regard to room decorations and 2) Student rights in regard to privacy. From the search, a reinstatement of present policy was formulated and given to the Residence Director and his assistants to enforce.

The new regulations greatly inhibit the student in having any decorations in his room other than those that can appear on his 3'x5' bulletin board. Articles placed on the floor, or elsewhere, are locked upon as clutter. Reasons given for these regulations seem to revolve around fire regulations, room damage and an improper atmosphere for a dorm room. There can be no debate on regulations set forth by the fire marshall but on the other points, the debate becomes rather extensive.

On the dorm books it presently states that a student will be held responsible for all damages that occur in his room, over the course of his stay. With this in mind, and with the fire regulations in mind, it seems that a student should be free to decorate his room as he sees fit. The room is all the dorm student can really call his own on campus and for this reason it seems that he, the student, should be allowed to express a little individuality. Psychologically, the student should have an atmosphere in which he can live, as well as study, an atmosphere which cannot be predicated by house authorities, but predicated only by the individual.

The other point in the current issue is in regard to student privacy. Just who, and for what reasons, should anyone be admitted to a student's room? And, if they are to enter, wouldn't a knock or a fore notice be considered? In the past there has been no consistent ruling on this issue and as a consequence the students' rights have been greatly disregarded. Except in extreme cases, and with regard to the cleaning by the maids, it seems that a student should be asked permission and be contacted by any person who wishes to enter his room.

Many people involved, including the authorities, feel that the rules regarding these two issues are presently inadequate but that they do have to be enforced. But it seems to follow more logically that if the rules are inadequate they should be changed.

BOARD REPORTS

Wednesday evening's Student Board meeting began with Turner's answering service providing responses for questions asked by a small crowd of students inquiring about Fr. Konstaneur's departure. The context was much the same as presented in the special edition of the Carbon. There seemed to be concern by fresh about whom they could go to for counselling and others wondered what kind of protests would be initiated by the Student Body. The latter question seems to be undecided at the moment.

In anticlimatic and to the discussion came when a reporter from WUSB-TV walked in after most of the audience had left. He wanted to know details about the situation since just that evening he had received a blank call suggesting a protest movement was in the actuality stages.—No such luck for him, but fortunate for us. The situation at present, though intolerable, cannot be changed through a mass protest movement.

The rest of the meeting consisted of committee reports and discussion. Miller's analytical detective work concerning mystery (CONT ON PAGE 1)
Q. How were the students on the Student Welfare Committee finally selected?
A. A list of candidates was drawn up by the Student Board. This list was then submitted to the faculty members on the committee, and they selected the students. The faculty members include Mr. Fields, Monsignor Doyle, Father Prezce, Sister Miriam Clare, Sister Marie Pierre, Mr. Bridges, and Mr. Rath.

Q. Is Bernie Lawrence coming back to the MC Cafe?
A. None. Mr. Lawrence is being transferred. Your new Saga Foods representative on campus is Barry Lloyd.

The following were asked of the Student Board President, Tom Turner:
Q. Which committees of the faculty and administration have student representation?
A. "Students have representation on the Educational Policy Committee, the Student Welfare Committee, Convocation Committee, Honors Committee, Athletic Committee, Publications Board, Curriculum Committee, and Liturgical Committee."

Q. Has the Student Government appointed people to all these committees?
A. "Some of the student positions were filled by last year's Student Board; others have been filled by us. I can only say that to my knowledge we have filled all positions on presently functioning committees. Some of the above committees are listed as tentative. The Welfare Committee has just reconvened after two years without a meeting, and it is difficult to know which of the other's are doing that."

Q. Student participation on faculty committees will be evaluated by the faculty at its April meeting. Does the Student Board feel it can build a case for continued student involvement on faculty committees?
A. "Certainly. I feel that if we have to "build a case" we have failed. Furthermore, I will be disappointed if we are not offered a greater degree of participation in the future."

Q. Over the Christmas vacation Doyle Hall was searched, under the direction of Mr. Fields and the janitorial staff. What is your opinion on this matter?
A. "Absurd! Reprehensible! A blatant disregard for the rights of others. It is simply astounding that well-paid members of what is universally acknowledged as a severely undermanned staff would spend their time doing something like this. It certainly causes one to wonder if/what they think.

To The Editor:

Bless me Mr. Fields, for I confess to Almighty God and to you, Mr. Fields, that I have sinned. It has been three months since my last confession, and this is my sin: For over three months I have lacked and several posters taped to the walls of my room because I wanted to hide those ugly, blank walls that always depress me. I wanted to give some personality to my room. May I ask you a question, Mr. Fields? Do you have anything—paintings, posters, etc.—decorating the walls of your home? I want my home to look and feel lived in, just as you must want your home to be. Why must I live in a prison cell? I am mature enough to respect the property of others. What harm are posters, pictures and signs doing to the building? None, I, Mr. Fields, am "pissed off". I realize that you must follow the suiting whims of the administration; how about putting in a good word for the guys at Doyle Hall to them? It may come as a shock to the administration that our morals are not going to be corrupted by the posters and pictures on our walls. These are a few of the little things that help to brighten our "drab little lives." Think about it, Mr. Fields.

Jack Lane

Dear Editor:

Speaking for many of the men of Doyle Hall, I would love to express my deepest gratitude and appreciation for letting us dine in the Perc Sunday night. The majority of the students did not mind waiting thirty-five, forty-five, or even sixty-five minutes to get through the line to be jammed into a booth to eat cold food and drink warm milk and soft drinks. We realize that the Perc was not adequate enough to accommodate two hundred adults but more than answer to feed over four hundred students.

The basketball players from Aquinas who were the guests of the school, too, must have deemed this a great honor and privilege to be taken care of in such plush surroundings. These guests must only wish that their school was as equipped as could not wait to return to their school to tell of the intelligence and organization that goes on here at MARIAN.

Again I would like to thank whoever was in charge of this superb undertaking and hoping that they will take notice of the students unyielding acceptance and have many more in the months to come.

Dave Haire

P.S. Thanks also for the music provided by the juke box provided we had the quarter to put into it.

CARBON WANT AD

Wanted: one typist for the CARBON. Must be attractive, young and aggressive, willing to work Thursday nights. No pay, but extended vacations.

Emisseries from the archdiocese will be on campus next week to remove pictures of Fr. Koenenman in last year's yearbook.

Board Reports (Cont.)

concerning the search of Doyle Hall should lead to improvements in the future. Rick Entrikin reported that lack of communication was the main cause of tension in the social committee. Jim Hass reported on N.S.A. doings. And the matter of sending members to the convention was discussed with Tom Turner speaking in favor of sending the president.

The meeting ended with a period of trying to rejuvenate school spirit. Dave Haire came up with good new ideas for publicity.

No legislation was introduced mainly because of the lack of legislation tied up in the Welfare Committee.

COtMENTS: Barb Huber came up with a good solution for the communications problem. Each member of the Clare Hall Board took time to discuss their new hour proposal with the Welfare Committee members. This should at least lead to better understanding of the proposal.

NOT THAT IT MATTERS MUCH BUT... (CONTINUED)

Variation in this particular case will be, sadly enough, that the American people will have the melancholy duty of choosing the "less worse of two ills" (if that is grammatically possible). Keeping this in mind, one can't be too harsh on the masses of Americans who have made political indifference a way of life. For the most part, the multitude of the presidential possibilities, ranging from "cranes" Lyndon, to George Romney (with the machine-washable brain) to Lurleen's smiling husband George have succeeded magnificently in nauseating enough Americans out of taking an active interest in the campaign.

Wouldn't it be great to have a "real" leader at the helm. How inspiring it would be to feel a sense of national purpose again? Surely God won't allow one of the numskulls who are presently throwing their dance-cats into the ring to be elected President.

Last I discovered on the American way of life and too optimistically, let us remind ourselves of what must truly be the final blow. Though I try to deny it we may, the fact remains that the only man in the country who could effectively capture the imagination of the masses today is -- ob! -- Joe Pyne...
