ACTIVITIES

The Total Tabulation

"Man is only human./ He finds his needs wherever he goes,/ All have the possibility of beauty within them/ and so with such a great part of that All/ at every point of man's rest he supposedly can easily find his needs ... especially when he is awake." Hello again, it's CARBO-licies. Sorry about no paper last week, but the ribbon got lost, as did all kinds of people and objects. But I guarantee a good week as I peruse the activities calendar.

TODAY and all next week from 4:30 - 5:00 William Malczan will present his own art exhibit in the Library. I haven't been over to see it yet, but I hear it's really good. At 6:00 in the auditorium Doyle Well will present the movie "Through A Glass Darly." It's a psychological study of a young woman who goes insane - it should be very entertaining and thought-provoking.

Here's something for those who are planning a definite future: a Suicide Seminar SATURDAY from 12:00 to 5:00 in the same auditorium and classrooms 2 and 3. In the evening at 7:00 another famous Indian movie will be shown in the NH auditorium "Phool Aur Patthar" starring Dharmendra Zengo and Ichitamon Kazamadziki Smith.

SUNDAY is May 1 and you can once again sleep late and miss mass. At 215 there will be a Japanese Tea Ceremony on the South Campus, wherever that is (I suppose it's by the tea house) followed by an all-campus promenade while the treats head for Holiday Park. Things are happening there. Then to top off your juicy-fruity day there will be a band concert in the NH auditorium at 6:00. Such a deal! What more could you ask for?

SUN DAY starts a new school week - one of the few still remaining. At 4:30 in room 306 an all-school meeting will be held by the Goals and Purpose Committee. And that ends the first day of the new school week.

TUESDAY is the second day of the new school week. Our over-enthusiastic Biology and Conservation Club will meet in room 157 at 12:15. Ah! At 1:00 there will be an Economic Round Table Speaker, Reverend Donald Schmilin, to talk on "Church and Social Action" in the Perle Lounge. Find out what you can do for YOUR religious community.

Finally, MONDAY and Field Day. 10:30, I believe, is your last class. Here's the tentative schedule: 11:30-12:30 picnic lunch by the lake. 1:15 presentation of plaques to outstanding Brian Hald and Knight. (You can vote for these two seniors on Monday from 11:00 to 1:00 in front of the auditorium. Anybody can vote but the names must be seniors), and the drawing for the Booster Club Raffle; 1:00 to 4:00 various games and rib-tickers for all you good-guys; and at 4:00 we all gather round and sing "Good Night Everyone." MONDAY at 12:15 the biology department will give a lecture on "The Busy Bee" in room 157, for all you busy little bees. At 7:30 an Honors Convocation will be held in the SAC auditorium. Former Governor Nathan Welch will speak - reception following in the SAC lounge.

"Don't miss "Midsummer Night's Dream" coming to MARIAN next weekend and the fantastic Freshman Class Street Carnival. It's a new and groovy idea and the frosh have put a lot of work into it. It's their first big event this semester so they need all the support they can get. Good luck frosh.

Don't forget the Derby tomorrow.

A final word for the day - "Smile."

3:30 — Tug-of-War
3:45 — Back Slap-Cool Teams
3:50 — Dodge ball-boys
7:00 — SUPPON CFT 800 0719 omitted

SWIMMING ANYONE?

Colonel Wagner has announced that anyone wishing to help clean the outside swimming pool should meet at the pool 8:00 a.m. Saturday. The more people that help, the earlier the swimming pool will be ready.

DECOXY RALLY

It seems rather ironic that a recent decod rally in Maryland turned into a race riot, last week. Perhaps the establishment should worry more about clothing the poor rather than yelling about the trouser-dropping of the rich.
The onslaught of spring comes a passivity to the happenings surrounding us. Indeed, it would be easy to forget the cross thrust in our society as epitomized by Dick Gregory a few short weeks ago—

Racial Discrimination
Vietnam
The Draft
Slums
A Materialistic Monetary Value System

And, perhaps, at the present time it is worthless for many to even consider these defects in our society, for truthfully what are they going to do about them? In fact, I believe that the average student will talk and expound superficially on society’s problems, but not on the problems which he can do something about immediately. Perhaps I am wrong, but what have you contributed to UpBeat lately? If you’re really concerned about the ills of society, then why not begin eliminating these ills at home?

Now is a form which you should complete and deposit in one of the UpBeat boxes located in the Perco or in the cafeteria. The filling out of this form is a commitment to donate your time to keep UpBeat alive. You will be contacted in a few days. It is important that you commit yourself to this program, dear students. Now; for if UpBeat does not receive sufficient funds within the next couple weeks—It won’t be beating. 

PASS-FAIL

The photography will meet for the first time, tomorrow, Saturday at 10:00 a.m. in room 201, led by Student Board president exciting! Paul Kaslierzak. Paul will demonstrate the main camera techniques to be used for successful pictures and will later go into the care of cameras and the developing process. Selective Service Education will continue to meet on Wednesdays at 9 p.m. in SAC 1 until the end of the year. Elementary Cooking has been cancelled until next year says Cook Mike Izzo. Basic Auto Repair will feature the first REACT field trip this Saturday at 10 a.m. SAC 1. There will also be a guest lecturer on stick shift driving. The class will also feature the first OTO, 1951 Pontiac “Screamer.”

A new course to the REACT curriculum is 500 Appreciation. This course will consist of providing daily transportation to the track. Anyone who can drive on any day is asked to sign a list on the Perco bulletin board or in the information room. Those needing rides may then contact those people. The success of the course depends on your cooperation. Won’t you help?

REACT will compile a list of all students who will be in Newport over the summer and (OCT. 30TH COMING)

UPBEAT

NAME ______________

K.O.O. ______________

make it available to interested students. If you will be in town and wish your name on the list, please sign the list on the Perco bulletin board or in the Info. office.

Hopefully, REACT will be sponsoring a W.C. Fields film festival 24 May during exam week. Three short W. C. Fields films have been ordered and we will know shortly if they are cleared for that date.

REACT teachers, if you have not yet turned in a syllabus of your course, don’t forget to do so. Also, you will be required to turn in a course evaluation at the termination of your course.

All students will receive a 1969-70 REACT catalogue this summer, explaining the future directions of REACT, new courses and more. Watch for it. If anyone would like to teach a class next fall please let us know. Meanwhile, REACT.

HELP KEEP UPBEAT ALIVE!!

Prepare yourselves, CARBON readers, for the UpBeat explosion! Beginning Monday and continuing until 2:00 A.M. Saturday morning will be UpBeat week! During this time you will be exposed to posters and informative pamphlets and asked to wear "Keep UpBeat Alive" buttons. You are also asked to save your pennies because Friday at 8:00 A.M. begins the great MONEY-MARATHON in the (where else?) Perco! There will be all kinds of fun going on over there until 2:00 A.M. Saturday morning including free music constantly, and a contest between classes to see which can fill their money jar first. So please support us during the week and do drop in on all the fun Friday! See you there?

Ann Carr

Pass-fail has passed thanks to those long hours of work and many frustrations faced by a few very dedicated students. Now the question seems to be what will we do with the system and how can it change us as individuals in the academic community other than allowing us to "float" through a course? Will we prove to the administration that we are truly mature individuals with a desire to be educated?

Granted, our pass-fail system is quite limited in this experimental stage, but not limited enough that we cannot impress upon those to whom we have entrusted our education that we are capable students and responsible members of society. We are being given the opportunity to challenge the necessity of a grading system—a system which cannot only sift out undesirable and ship them to Vietnam but over a four year span wraps all the intricacies of desires, abilities and values which make up the individual into a neat package and stamps it with a very cold and impersonal letter of the alphabet. A system which decides whether you will have that air-conditioned office or sweep it, and after four more years you ever question if your supposedly superior academic capabilities brought you into that pro's office after hours to kick up that "cum." The "cum" which has compiled the sum total of your abilities and creativity through true and false questions, add-terms, essays, bell-shaped curves, no-do, text books and crib sheets.

It is an irrefutable fact that the grading (CONTINUED ON PAGE 4)
A gavel. A small, but attentive audience. The M.I.T. auditorium, yesterday, 12 noon.

Perhaps, a seemingly insignificant event in MIT's college history. But not for the individuals involved. David Haire received the presidential gavel from outgoing President Paul Kammerzell. Mr. Haire introduced his new student board and gave an inaugural address which illuminated much of the character of Mr. Haire and we both of the entire new board.

The new president spoke of student dissatisfaction with the status quo of institutional America. He neither condemned nor approved of action taken at such institutions as Harvard, Cornell, or Columbia. These are situations with completely different lots of factors and problems than M.I.T. College.

Yet, I don't believe Mr. Haire ruled out any rational method of action needed for necessary social change in the M.I.T. community. Mr. Haire expressed the hope that change can come about through "organization rather than the overthrow." I agree with this principle of change and share Mr. Haire's dream that change can come about within the proverbial "system," but a bureaucratic system may easily stiffle change as well as criticism. If this should occur one should find it necessary to use other methods of effecting change in the same political and social process. With this understanding come of the M.I.T. wish to express our support and willingness to help David Haire and all the members of the 1967-68 M.I.T. College Student Board.

I hope to serve the board in fulfilling its dream of success in developing a free academic community at M.I.T. College. I also wish to congratulate Paul Kammerzell upon his completion of a very valuable year as Student Body President.

John Lahoney

LETTERS TO THE EDITORS

Dear CAROL Readers:

Many of you are probably aware of the Upbeat program on K.M.I.T. College Campus because of the recent letters in the CAROL, the newsletter on the bulletin board in the cafe, column in the dramatic, but nonetheless useful plea to "Help Save Upbeat" which has been highlighted on the main board in the cafeteria for the past week. If you are wondering what all the fanfare is about, it is the lack of funds for the Upbeat program next year. Monday, May 9th, the Upbeat Organization is going to give you—the students and faculty of M.I.T. College—the chance to "Help Keep Upbeat" through the first Care-a-thon. Be watchful next week for posters, flyers and tugs which will give all the details.

Sharon Stark, Upbeat Secretary

P.S. Thanks to the players for their recent contributions to the Upbeat cause.

MIDSUMMER'S NIGHT DREAM

THE PLAY IS BETTER THAN THIS

We students at M.I.T. are in part radical, in part confused. But not in any part the middle or upper middle class. I was once the doleful dole of the outcast, the one who warned, thirty hours off campus and fifteen semester hours in the classroom. Despite the political affiliation of these students, they are finding it impossible to promote their educational endeavors due to lack of funds. The students are not the part undergraduate, undergraduate investigators and at times innovators who desire knowledge and experience. Being non-adults they youth, since birth, formative to the nation's economic burden be they just or not at all. Only for a summer's work and part-time employment the right (cash to alter a state uninvited where they can nurture in holy and mind to the adult stage. The adult is to question, explore and experience the basis of life, your nation and our fellow man. Not—yes—even critique yourself on matters of serious economic concern or not so that.

What do you do when you encounter a force which answers these questions? So powerful is this force and so large is the something that you find that your purchased right to question and disagree is being threatened.

The force of course is Aryan Government and the something, an increase in college fees. Can you say honestly, "O.K., Mr. Hitler, if I must work thirty-five hours next semester then I rust," but as a student, haven't you paid the price for, at least this semester, questioning and disagreeing. Do you not have the American-purchased right to write your own slogans and oppose this threat. Students should reward the power it takes to be heard because maybe this time they are right. All these students want is to work with capitalism and gain an education. The radical fiction has not functioned in discussing in the power at Purdie but must they?

Mike Miller

QUALITY

Visit the newly refurbished 50, painted in shades of white, black, and white (including the window). It is a beautiful little scene.
Last Saturday MARIAN lost two close games to Wabash (5-1) and (1-3). In the first game Jack Adams was the winning pitcher. Jack has an overall Earned Run Average of 2.30. Larry Horkack got a single base hit while Hel McKinney got tagged with the loss. Mike posts the best ERA on the whole team, 1.30. Even though Jim Herbe and Paul Long went 2 for 3 in the game while Mike himself batted .500 this game, it was not quite enough to pull the team through.

This past Sunday, MARIAN won the first of a double-header 6-3. Although Goldsmith did pitch a good game he had plenty of hitting behind him. MARIAN posted 12 hits throughout the game, seeing Larry Horkack hit a home run, while Jim Herbe and Hel McKinney both connected for two. John Yaney's 3 hits proved him also to be a real BREADTH.

In the second game with Bellarmine, our hitting did not hold up so well and Hel McKinney got tagged with a 7-3 loss. Helvin Wilhelm seemed to be the only player able to hit the ball this game. Helvin had a slow start while Hinkle batted as all the baseball fans can see, he is starting to come around.

Yesterday MARIAN split a twin-bill against Franklin. In the first game, Goldsmith got tagged with the loss (6-8) loss. MARIAN gave then a run way to go but we still came up on the short end. At the top of the seventh, MARIAN was losing 6-1 but the boys rallied for 7 runs to tie the game up at (8-8). But Franklin came up with another run in the bottom of the seventh to win (9-8).

In the second game, Mike Brunette pitched a no-hitter to win the game (3-1). Mike proved himself a worthy pitcher but some credit must be given to Larry Hornback who came through with another two-run homer to clinch the victory for MARIAN. He also had a triple while Mike Brunette also got a hit in the game.

TENNIS

Last Saturday the MARIAN tennis team played Thomas More and won (6-1). In singles Joe Lustig, the number one player, won while Dan Eha, Phillips, and Beaver won also. In the doubles matches Joe Lustig and Dan Eha teamed up to gain the number one doubles victory while Beaver and Phillips won the number two doubles match.

Tuesday, MARIAN didn't fair so well againstIndiana Central. Although the team had the help of Bob Boynton they still were unable to pull out a victory.

Yesterday the team got beat 5-2, seeing Joe Lustig win his match. Also, in the doubles matches Joe and Dan won their match.

Saturday, the team travels to Covington, Ky, to play Thomas More and the boys are anticipating a victory.

The team has a record of 1-5 while the number one player, Joe Lustig, has a 1-2 record.
