TO THE EDITORS:
The editorial on sports which appeared in last week's edition of the CARBON has raised many questions in the minds of a number of interested Marian students.
If one were to investigate the athletic policies of the schools that appear on our schedules, you would find that all but a few offer some kind of aid to a limited number of athletes so that they will attend their schools. Will we ever be able to have a winning team, or even a respectable team, if no type of aid is offered at all by this school? A boy who has to work has little time to practice athletics. An athletic grant-in-aid probably would have been enough to persuade good athletes who left last year to remain.
Marian doesn't even have a Physical Education major to offer. Such a major would be bound to bring some athletically-inclined students to the school. We know of at least two boys who would have attended Marian, aid or not, if they could have majored in Physical Education. Both of these boys were starters on teams that beat us very badly this year.
A lot of students would like to know if something can be done in this regard.

FAMILIAR SCENE ON CAMPUS
by Gail Ebach

A TREAT
You have a treat in store for you this weekend. It's the One-Act Play Festival. It is being held here Saturday and Sunday in the Auditorium. Last year it was a very entertaining show...and...IT'S FREE!

DAZED AND WANDERING
If you happen to see a Senior staring straight ahead on Friday and Tuesday, don't be alarmed. It's not a contagious malady or possession by the devil. It's just that they're taking the Senior Comp's.

THE BENEVOLENT DRIVER

Beware!
Two weeks from yesterday are the mid-term examinations. ARE YOU PREPARED TO MEET YOUR MARKER?? (The preceding was a paid political announcement)

THE BAND
Look out! Here he comes again. This time he speaks of the end of time:
"The trouble with electric clocks--They have no ticks, they have no tocks, They're fine, though, if you want the hour--it which the storm cut off the power!"

March 15, 1956
Sorry Again

Our apologies to Sister Mary Rose, we gave false information last week. The speaker from Cincinnati will be here THIS Sunday, March 18 at two o'clock. Dr. Mcke 3. Greene, Head of the Chemistry Department at the University of Cincinnati will speak on "Career Opportunities in Chemistry." Be sure to come and bring with you any of your friends who are interested!

The Wearin' of the Green

All the O'Toole's, Flaherty's, O'Riley's, and McFay's will be wantin' to know of the Shamrock Sale which will be goin' on for the two days precedin' the great day! For only a wee dime (or whatever you be willin' to give) you can have for your very own a beautiful symbol of the Old Is. It's all for a good cause, too... the C.S.M.C. is in charge of sales, and all money goes to the missions. So, shure and begorra, don't you be goin' and forgettin' about this big sale! March 15-16!

The Snack Pit

Flash! Our correspondent overheard in the Percolator about a new TV show that is being scheduled exclusively for those of you who are Bridey Murphy fans. It is enticed: "THIS WAS YOUR LIFE!"

The Phantom strikes again: In psych class the other day, Father Courtney asked: "What is an illuminating body?" An enterprising youth replied: "A glow-worm!"

Watch this column for more bits of wit collected from our Marianites! Who knows, you may be next!

Class Meetings Today: At Assembly Time!

"* * * * * * * * * * * *

Happy People

It's nice to have happy people around and it's nice to have those who love to sing, but, for crying out loud, (funny?), why can't they be content to confine the warbling to the Percolator instead of carrying it up the steps and disturbing classes?

"* * * * * * * * * * * *

Anyone for Golf?

Maybe if enough of you with strong backs and weak minds who have a love for pasture polo will talk it up, there might be a golf team!

"* * * * * * * * * * * *

Where is He?

If you happen to be looking for Father Courtney after school and can't find him, you might try the Percolator. He can be found there after classes wrapped around a cup of "juice," (or, if you prefer, coffee!) It's his only vice(?).

We're Sorry

The CARBON wishes to apologize to the students for saying that the Passion Play would be good. We hear it was a fourteen-karat flop, so we're sorry.

"* * * * * * * * * * * *

Eighty Miles

So you characters gripes about having to drive across town to get to school? And once you're here, you can't even get to class on time. Well, Judy O'Connor travels eighty miles a day to and from school and not one appeal for sympathy has passed her ruby-red lips!

"* * * * * * * * * * * *

Orchids and Onions

Orchids... to the frogs who gave us hope that spring had arrived by their early symphony on Monday and Tuesday.

Onions... to the speakers who don't speak loudly enough to be heard at the Thursday Assemblies!
