Alverna begins reconstruction as music center is completed

by John J. Mathis

Marian College hosted a special groundbreaking ceremony on July 16th, "for the construction of a new perimeter and new student center." this ceremony was entitled, "New Visions" and is the first step in Marian's five year campus renovation plan.

The first step includes the renovation of Alverna Hall into the new student activity center, and, "the enhancement of the Cold Springs Road perimeter, through the development of a main entrance, [a] perimeter road, and landscape treatments compatible with the architectural style of the historical Allison and Stokley Mansions located on the campus."

Funding for these projects have been graciously provided in part by the Lilly Endowment, Inc. and The Indianapolis Foundation.

Wilhelm Construction Co. was contracted by Marian College to do the renovations to both Alverna Hall and the President's House which is now the new music building. As of now, Alverna stands naked; completely divested on non-essential walls

and equipment which it once contained. Construction is currently at a stand still due to the fact that Marian is obtaining bids to finish the rest of the project. The contents of the building are still incomplete, however, the last set of plans included an activities room, a pool room, a lounge, the Knight Club, and the bookstore.

Contrasting the gaunt look of Alverna, the new music building is nearing completion. The building permits, taped to the front window, total in excess of 220,000 dollars. The entire house has been renovated to accommodate the six music educators employed by Marian. Also included in the house are five rehearsal rooms, three bathrooms and a listening room. The addition on the back of the house includes a back entrance, a classroom, and an expansive rehearsal room. Every office and practice room, including the classroom and rehearsal room, have a special acoustical paneling that absorbs sound, creating a better environment to practice. Anyone wishing to see the building can do so Monday through Thursday, 9 am to 8 pm and Friday until 5 pm.

Baseball team begins working on its goal -- district championship

by Susan Schuppan

Marian's baseball team is in unison as they talk of reaching their dream this year -- to win district for the first time since 1973.

To reach this dream, Coach Bret Shambaugh is attempting to find the best players during the intersquad games this fall to create the best team in the spring.

"My expectation for this year is to have the four seniors demonstrate leadership to allow the sophomores and juniors to play pressure-free," stated Shambaugh. He is not positive the team will be better this year, but they have the potential and they have improved in consistency from last year.

Sophomore players, with one year of college playing experience under their belts, make up most of the team, which helps everyone play together well.

"We play with a good attitude and play to win," commented last year's Most Improved Player, senior Jim "Stick" Pruitt. "Stick", along with Brian Johnson and Sean Murray are the team's key players this year according to the coach. The three seniors were all-district players last season.

Both "Stick" and sophomore pitcher Drew Dodson agree that they have become more disciplined and responsible in

the past year under Shambaugh.

"Playing under Bret has brought out the best of my ability, and my hard work has carried over to other things besides baseball," said "Stick".

"I have a lot more knowledge of the game," added long time player, Dodson.

Steve Keenan, who set two school career records as one of Marian's key pitchers, along with David Disbro, the current assistant coach, were two exceptional players the team lost last year. However, according to Coach Shambaugh, Chris Reynolds, leader in district saves last season, and Dodson have potential to replace the two lost pitchers.

"If this happens, the team will be real tough," Shambaugh said.

Freshman roommates, Benji Coon and Pat Coonie find college baseball tougher and more challenging than high school.

"It is more physically and mentally demanding," said Coon.

Both Coon and Coonie are pleased with their playing time and had a great summer ball season while the upperclassmen took them under their wings.

When asked how he viewed his baseball career at Marian, Coonie commented, "I plan on improving every year, so by my fourth year I'll be playing to the best of my ability."

Interns needed for House, Senate

Upperclass students are eligible for internships at the Indiana General Assembly during the spring semester of 1991.

Interns will participate in a regular work week and a wage is offered to pay living expenses. Six to nine academic credit hours are available.

Students applying for these positions should possess solid writing skills, communication skills, enthusiasm and an interest in state government. The program is designed to provide "Hands on" experi-

ence of classroom information as well as the opportunity to participate in the political process while working with elected officials.

Positions are available in the media services, which includes preparing press releases, newsletters and radio feeds, and the member services area, which includes constituent casework and research.

Interested students should contact Bill Doherty, ext. 270 in the History/Political Science Department.

Security?!

Local gossip has it that the security department has upgraded. I have been told that an officer patrols by foot each evening and that other changes have been made as well.

So, this morning I went to confirm these rumors (I had heard them just the night before), but unfortunately there were no security officers in their office at the time. The switchboard lady said I should talk to the chief, but he is in the hospital this week.

Sound like a lighterside? Too bad it is not.

I have found that security has been an issue with students and faculty alike, but apparently no one is listening.

Why is it that the nursing department has already had equipment stolen this semester, from a locked room?

Why is it that many faculty, particularly women, are scared to work in their offices past dark?

Why is it that Resident Assistants are in charge of "security" in the residence halls? They have neither the training nor ability to deal with an armed or dangerous person, but at least the ones in St. Francis are asked to make rounds in the basement, where more than enough opportunity exists for this situation (and from where the nursing equipment was stolen).

Why is it that no one seemed to mind last year that the Clare door was broken for a month, allowing anyone to walk in the door and up on the floors?

Why is it that cars get broken into, even in the middle of the day?

Unfortunately, I have no answers to these questions. Something needs to be done. Marian is conveniently seated in between bad neighborhoods. Just east of here is an area with heavy gang activity.

Short of putting up barbed wire fences and digging a moat, I can see no way of keeping our campus completely safe from outside invaders. On the other hand, that does not mean we should let security slip because the security officers can not be everywhere at once.

A good start would be some new faces on the force. We simply need more people. A campus this size needs several patrolling officers, not just one.

Secondly, we need LIGHTS on campus.

Last of all, there's safety in numbers. Why doesn't someone on campus start an escort service in the evenings? I would feel safer walking from the library or computer lab late in the evening if I were with someone. Statistics show that a woman is 98% more likely to be attacked if she is by herself. Think about that for a minute -- 98%.

I hope that you will think about all that you have just read. Better yet, I hope you will do something about what you just read. By ourselves, nothing will get done, but together it might.

But remember, only your life depends on it.

The Marian College English Department and The Marian College Writing Center

announce

the first annual

Thoreau Award for Excellence in Writing

to be awarded at the
Student Awards Ceremony
in April of 1991

The first-place award carries a prize of \$100; the second-place award carries a prize of \$50 and the third-place award a prize of \$25.

An essay written by a student for a Marian College class during the 1990-91 school year is eligible for the award. Essays will be nominated by the professor for whom the work was written; all nominations, together with a copy of the paper nominated, must be submitted to David Shumate, Director of the Writing Center, by March 15, 1991.

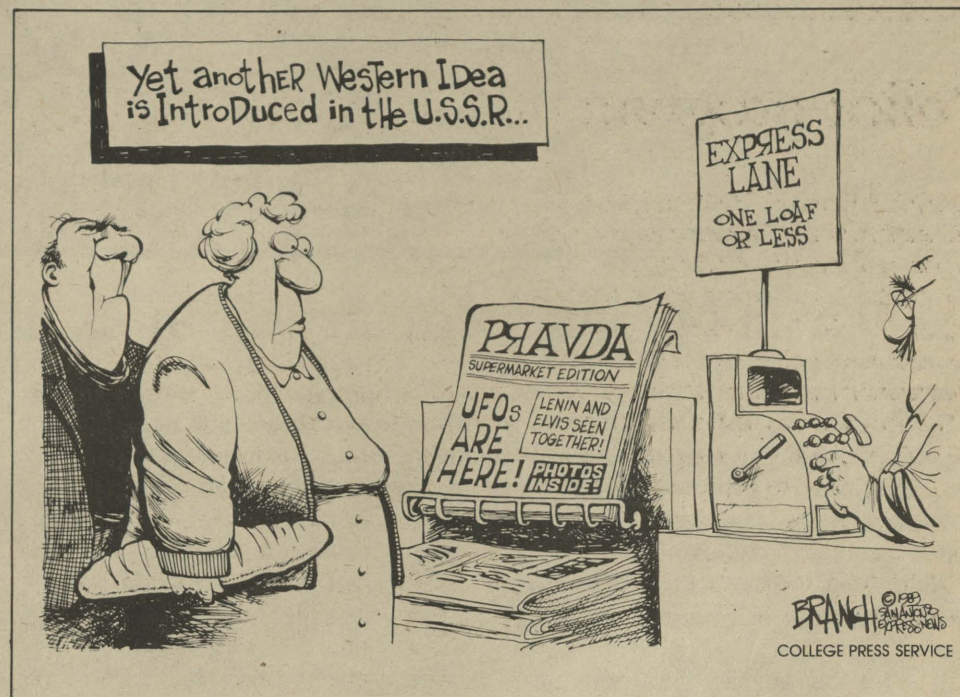

Nominations will be screened by the English Department. The top five essays will be submitted to a committee composed of members of the three divisions of the college (humanities, sciences, and professional studies) for final judgement.

Each essay will be judged according to how well it fulfills the task it sets for itself; thus, a three-page personal essay and a fifteen-page research paper would both be eligible for the contest, but would be judged by different criteria.

All essays, however, must be organized around a central idea and must exhibit the qualities associated with good writing; they must be grammatically correct and error-free, they must display a good command of sentence structure and paragraph organization, they must provide graceful and coherent transitions between ideas and they must be provocative. Research papers must employ an appropriate system of documentation.

Winning essays will be considered for publication in the *Fioretti*, the college literary magazine.

For more information about the Thoreau Award, please speak to David Shumate in the writing center or call him at 929-0597.

The Carbon, a source of news and information as well as an open forum for the Marian College Campus community, is not an official publication of Marian College and does not necessarily reflect the views of the college administration, faculty, or editors. Readers are invited to submit timely and relevant letters of opinion to the editors. Such letters should not exceed 150 words and must include the author's name and phone number. For verification purposes the letter must also be dated and signed. Telephone numbers will not be published, nor will anonymous letters be published. Letters may be edited for clarity and brevity. Editors have authority to reject any letter they feel to be potentially libelous, obscene, inflammatory, or in poor taste. Ordinarily such letters should aim to address issues, clarify events, promote understanding, or clearly identify what is going on in an event, issue, or scene. No guest editorials will be accepted unless explicitly solicited by the editors. Unsolicited pieces will be treated as letters to the editors. Letters to the editors must be turned in to the Carbon's mailbox in the faculty mail room by 12:00 noon, Friday, the week before they are to run.

Any campus club or organization sponsoring an event can advertise in the Carbon at no charge by submitting a 4"x5" ad to the Carbon in the Carbon mailbox in the faculty mailroom one week before the ad is to run. If typesetting is required, the ad must be submitted two weeks in advance, and a fee will be charged. The Carbon will run the ad for the two weeks preceding the announced event.

Events or informational notes can be submitted for the *Knightly* notes by campus organizations or persons. The text must be 50 words or less. The deadline for Notes is Fridays at 12:00 noon in the Carbon mailbox. The editors reserve the right to edit all advertisements and notes submitted.

City Talk

Police program puts cops on bikes

Mayor William H. Hudnut, III and the Indianapolis Police Department Chief Paul Annee recently announced a new addition to the department's crime fighting resources -- the IPD Bicycle Patrol. The new means of police patrol is patterned after a similar program in Seattle, WA.

The program was designed to improve the officer's ability to maneuver in and out of traffic and to increase police presence throughout Indianapolis neighborhoods and during special events.

"We're delighted to add this alternative patrolling service to IPD," Mayor Hu-

dnut said. "...we hope it also strengthens community relations by making officers more accessible to the citizenry."

Funding for the Bike Patrol, which includes nine fully equipped bicycles, comes from IPD's Forfeiture Fund. Each blue and black Raleigh Peak 21 Speed Mountain Bike features headlights, flashing red taillights, fenders, spare air cartridges (to repair flat tires), and compartments for police paperwork. The bikes will patrol all areas of the city and may be used as a group or spread out to cover different events and areas.

Neighborhood News

Super Saturday: Daredevils can start their engines and participate in the Big Wheel 500, September 15 at the Velodrome. This Indy car racing event is open to kids ages three to five. Have your little driver bring his/her own big wheel and register at 9 a.m.

Also, football fans ages eight to 13 should run over to Kuntz soccer stadium, 1502 West 16th St. to compete in the Punt, Pass, and Kick contest. Winners go on to the regional finals at the Hoosier Dome. To get the game plans, contact Mark Bowell at the Department of Parks and Recreation, 924-7037.

Trash Your Toxics: It's that time to take your household toxics to "Tox-A-Way Day" Saturday, September 22 at Garfield Park.

Some 12,000 gallons of old paint, drain cleaners, glue, varnish, insecticides, and other hazardous wastes were safely disposed of at the last "Tox-A-Way Day." Contact Sue Kleinke in the City's Public Works Department, 236-5411, for more info. Also, contact her for info on free vehicle emission testing at various Cub Food Stores throughout the city.

Birthday Bash: The tenth annual Fiesta Indianapolis kicks off on Saturday, September 15 with cultural Hispanic festivities at the American Legion Mall. The City of Indianapolis will have various booths providing info about the different services and employment opportunities the City offers. Rolando Quintana at the Hispanic-American Multi-Service Center has more info, 636-6551.

Staff Profile

by Shannon Gaughan

You may have noticed a new friendly face around campus ministry or behind the piano at church. This enthusiastic person is Father Fred Link, known as Fr. Fred.

Now Fr. Fred teaches theology and really enjoys the interaction of the students. In addition to his theology classes, the former high school music teacher works with Sara Reid in the Music Department.

The Franciscan friar's most important role is director of Campus Ministry. His goals are to continue to build on the good work of Father Francis Bryan and continue to motivate many students to become servant leaders.

One thing Fr. Fred really likes about Marian is the goodness of the people. He feels the students are very easy to approach and talk with. The Ohio native gives this advice to students: "Live life, it's wonderful." He went on to say that you should be yourself and follow your dreams.

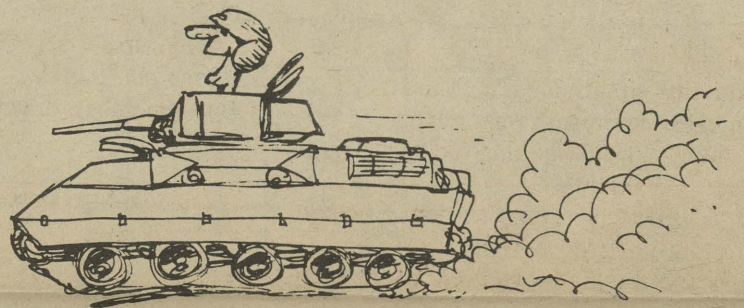

The pizza lover strongly encourages students to reach out and not be afraid to talk to people. he hopes students will find

him approachable because he is anxious to share in the people's lives, good or bad.

Registration for draft up

(CPS) -- Voluntary registration for the military draft has skyrocketed since the August 2 Iraqi invasion of Kuwait, the Selective Service System reports.

The number of men signing up has increased 67 percent over the amount who registered before the invasion, said Selective Service spokeswoman Barbie Richardson.

There are no current proposals to reinstate the draft, which would happen only if Congress were to order it.

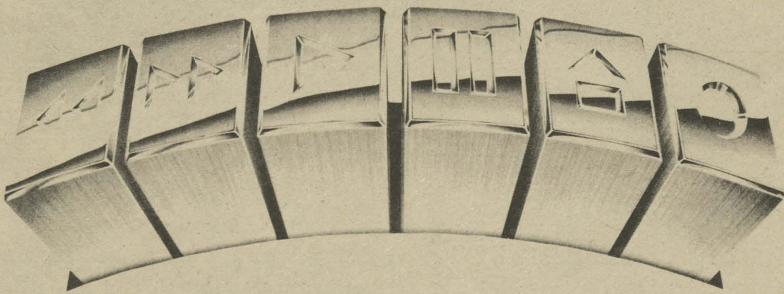

"Historically," Richardson said, "there

have been hikes before conflicts" such as the recent U.S. invasion of Panama.

There could be any number of reasons for the dramatic increase, Richardson said, such as students finishing up tasks before heading off to school.

Federal law, although haphazardly enforced, requires young men to register within 30 days of their 18th birthday. Additionally, students have to certify they have registered before they can receive any federal college aid.
