THE DEFENDERS

As the defender of the faith, champion of the persecuted, and pillar of strength THE CARBON, without hesitation, places itself on the firing line of college life. We strike out with blazing sword at the knavish souls who recently rose above their Stygian level of existence to criticize, without foundation, the number of our faculty attending basketball games and the efficiency of our maintenance crew in removing the snow after the last blizzard.

Let the record show that in an average situation we have a quite respectable faculty representation at basketball games. On many occasions there is a greater percentage of faculty members in attendance than members of the student body.

Let the record also show that our maintenance crew worked under extremely difficult conditions and for long hours to accomplish the Gargantuan task of removing nine inches of snow. They began early in the morning and worked well into the night to complete the job. It was not all cleared Monday but this was due to the depth of the snow and the presence of cars on the drives and in the parking lots.

M.B.

STUDENT BOARD

- I. The constitution of the Day Student Organization has been approved by the day students. It remains for the Student Board and the administration to add their stamp of approval.
- II. There was discussion over the possibility of improving the lighting in the men's and women's lounges.
- III. The Publications Business Board is in dire need of salesmen.
- IV. The Marian yearbook needs many more personal patron ads. Students are requested to ask their parents to purchase such an ad.

FOLLOWUP..

The ideas and plans for expansion presented in the CARBON a few weeks ago have reached the stage of action. The architect's plans for the new men's dorm have been approved and the first wing of the new building will definitely be completed in September. The architect's drawing is posted on the main bulletin board and the information will be released to the press immediately. Our President was quite right when he said that this is an exciting time for Marian College. Our college is growing at an increased tempo; our patience is being rewarded.

DON'T FORGET

By pawning the crown jewels, stealing hub caps and selling class members into slavery the Sophomore Class has accumulated enough money to present the magnificent SWEETHEARTS BALL at the Continental Hotel, tonight, Feb. 7. Everyone can drink and dance and enjoy this tremendous extravaganza for only \$3.00 which is really pretty damn cheap. They have made this special price to accomodate even the poorest of Marian men. Unless you are completely insolvent make an effort to attend.

TOO OLD TO BE FUNNY DEPT.

One tonsil to the other: "This must be Canistrano. I just saw a swallow go by."

What is purple and lives in the soul? Sanctifying Grape

What is purple and lives in Macedonia? Alexander the Grape

CYNIC'S CORNER

Is it true that cemeteries are being renamed "Marlboro Country."

PURDUE CONFERENCE

Purdue University is sponsoring a conference Feb. 27 - 29 on the topic "Armament Vs. Disarmament." The Student Board is anxious for Marian to be represented at this function and prices have been cut so that the whole weekend will not cost more than \$8. Interested Students should contact Bonnie Johnson. Not even the U.N. can solve the world's problems so cheaply.

SING SING

The Men's Glee Club wants you ! The golden-throated few have carried the burden long enough. No try-outs necessary. Even "the Beetles" had to start someplace, so give yourself a chance.

MIXED EMOTIONS: Watching your mother-in-law drive over a cliff in your brand new Thunderbird.

Stoic... De boid that brings de babies. Then there was the beatnik cannibal that ate three squares a day.

Lead us not into temptation, but point us in that direction.

IT'S NO BIG THING

It's no big thing!
 Life is all dry--
 So--who cares?
 Heck with slobby sentimentality!
 Forget feelings.
 What are they?
 Except maybe playthings.

It's no big thing!
 Life is mine.
 Watch out--you're stepping in !
 Don't mess up my ideas--
 It's too confusing then.
 Don't tamper with me.
 I'm unbreakable--but others?

It's no big thing!
 Life is cold.
 Let others freeze.
 I'll be warm when I please.
 A soft kiss, a warm hand
 Can be subdued
 Take the burnt out ash of a cigarette.
 Are ashes big things?

It's no big thing!
 Life is trivial!
 Take it as it's given.
 Who says, "Little things mean a lot"?
 Push it away--
 Why worry over nothing?
 Nothing--
 That's what it is--
 Everything is nothing.
 It's just no big thing!

Lynn Hafeli

SCHREIBEN SIE, BITTE!

The annual Fioritti contest opened this week and will continue til March 9th. Winning poems, essays and short stories will be published in the spring issue. If the aesthetical value of seeing your work in print is not enough, remunerative compensation is also being offered in the form of \$5 for the best entry in each division. For further details see the main bulletin board.

Two Brooklyn secretaries saved and pooled all their money to fly to Paris. Finally, after years, they made it. Everything was going along well until the last day of their visit when Mabel came in the room clutching the guidebook and looking very despondent. "What's the matter, Mabel?" asked her friend. "Do you happen to realize that we've been here two weeks and I haven't been to the Louvre," answered Mabel. "It's probably something in the water," replied her friend.

TOOTING THE FLUTE

Also along with the recognition and applause that goes to the basketball team a deserving hand goes to the college Pep Band which is trying to give the Knights and the fans a moral uplift when things look bad and also some pleasant entertainment when things are good.

CARBON HISSES:

Indiana State Legislature for
 --levying taxes on school books
 --sales tax on educational institutions
 --refusing to reapportion et ad infinitum.

Cancer. Anyone can stop smoking but it takes nerve to face carcinogenic destruction of lungs.

Marion County for wheel tax.

Mr. Moran for knowing the way to the kissing bridge.

Dirty fingernails.

CARBON APPLAUDES:

Committees working on Sweetheart's Ball.

Mr. Baker for joining the Marian College Faculty. Welcome.

Senior men for time put on the traffic survey.

40 Hour Devotions

40 Hour devotions begin Sunday and all students are expected to participate in the services by signing up for adoration. A list is posted on the second floor for men wishing to serve as acolytes.

IT WASN'T ALL ROSES

Marian College, with Chuck Federle's 37 points, won their fourth game in a row last night by defeating Rose Poly 94-83

Chuck, with a .695 shooting percentage, led the Knights to their ninth win in twenty games. Tossing in a .875 average was Pat Sablehaus hitting 7 out of 8 shots.

At the half time the Knights led 43-36 and were never met with a serious threat throughout the rest of the game.

Rose Poly's high scorer was Duane Wood, the little guy with the big smile, who tallied 32 points.

Marian College's basketball team is on a path that potentially can give Marian its first winning season in the school's history, and a path that can only lead to a promising basketball future.
